Exhibit No.___(GRM-1T) Docket No. UE-100749 Witness: Greg R. Meyer

BEFORE THE WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION

WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION,)))
Complainant,)
v .)
PACIFICORP d/b/a PACIFIC POWER & LIGHT COMPANY,)
Respondent.)

Docket No. UE-100749

REVISED RESPONSIVE TESTIMONY OF GREG MEYER

ON BEHALF OF

THE INDUSTRIAL CUSTOMERS OF NORTHWEST UTILITIES

AND PUBLIC COUNSEL

REVISED December 6, 2010

1	Q.	PLEASE STATE YOUR NAME AND BUSINESS ADDRESS.
2	А.	Greg R. Meyer. My business address is 16690 Swingley Ridge Road, Suite 140,
3		Chesterfield, MO 63017.
4	Q.	WHAT IS YOUR OCCUPATION?
5	А.	I am a Senior Consultant in the field of public utility regulation with Brubaker &
6		Associates, Inc., energy, economic and regulatory consultants.
7 8	Q.	PLEASE DESCRIBE YOUR EDUCATIONAL BACKGROUND AND EXPERIENCE.
9	А.	These are set forth in Exhibit No(GRM-2).
10	Q.	ON WHOSE BEHALF ARE YOU APPEARING IN THIS PROCEEDING?
11	А.	I am appearing on behalf of the Industrial Customers of Northwest Utilities ("ICNU")
12		and the Public Counsel Section of the Washington State Attorney General's Office
13		("Public Counsel").
14	Q.	WHAT IS THE SUBJECT OF YOUR TESTIMONY?
15	А.	My testimony recommends several adjustments to PacifiCorp's cost of service. The
16		total value of all my adjustments would reduce PacifiCorp's revenue requirement by
17		\$5.4 million (Washington basis).
18	Q.	PLEASE SUMMARIZE YOUR TESTIMONY.
19	А.	I have identified and quantified adjustments to the Company's cost of service. These
20		adjustments are shown in Table 1 and summarized below. Each adjustment is
21		addressed in greater detail later in this testimony. The fact that I do not address an
22		issue should not be interpreted as approval or acceptance by ICNU/Public Counsel of
23		any position taken by PacifiCorp unless I state otherwise in my testimony.

Greg R. Meyer Revised Redacted Responsive Testimony Docket No. UE-100749

TABLE 1				
Proposed	<u>Revenue Requir</u>	ement Adjustme	<u>nts</u>	
Issue	Test Year <u>Amounts</u>	Company's Position <u>(WA Situs)</u>	ICNU/PC Position <u>(WA Situs)</u>	Adjustment to Company's Revenue <u>Requirement</u>
Cash Working Capital (Revenue Requirement)	\$253,717	(\$1,304,850)	\$0	(\$1,304,850)
Incentive Compensation	\$1,400,000	\$1,400,000	\$700,000	(\$700,000)
Residential Revenues Net of Fuel Cost Adjustment to Test Year	\$122,902,093	\$2,280,505	(\$41,769)	(\$2,238,736)
SO ₂ Allowance Revenues	\$299,113	\$537,064	\$818,514	(\$281,450)
2010 Pro Forma Wage Increases	\$0	\$373,895	\$0	(\$373,895)
Outside Legal Expense				(\$48,931)
Supplemental Executive Retirement Plan	\$169,675	\$169,675	\$0	(\$169,675)
2009 Wages	\$34,200,829	\$34,200,829	\$34,072,463	(\$128,366)
Management Fee (SERP, Bonuses, & Legislative)	\$618,792	\$540,780	\$363,599	(\$177,181)
Total Adjustment to PacifiCorp's Revenue Requirement				(\$5,427,789)
Note: *ICNU Residential Rate Revenues present	ed net of additior	nal fuel cost.		

- Cash Working Capital ("CWC") The Company's methodology for calculating CWC
 overstates the CWC allowance. I recommend a zero CWC allowance.
- Incentive Compensation PacifiCorp's incentive compensation plan contains goals
 which are not well defined, hard to quantify, relate to normal job requirements, do not
 motivate employees to achieve above-average performance, and may enhance
 shareholder value. I recommend that one-half of the incentive payments be
 disallowed.
- 8 3. Normalization of PacifiCorp's Revenues PacifiCorp's weather-normalized usage per residential customer is too low. I recommend that the residential usage per customer
 10 be based on a five-year average.

- SO₂ Emission Allowance Sales Revenues PacifiCorp proposes to amortize the sale of SO₂ emission allowances over 15 years. I recommend these sales should be amortized over five years.
- Fro Forma Wage Increase PacifiCorp has proposed to increase its cost of service to
 reflect 2010 wage increases. PacifiCorp has not analyzed all relevant factors during
 2010 to determine if the wage increase should be reflected in cost of service. I
 recommend that the 2010 wage increase be disallowed.
- 8 6. Legal Expenses PacifiCorp has proposed to include the allocated share of outside
 9 legal expenses in cost of service. I recommend that only those outside legal expenses
 10 associated with the Washington jurisdiction be included in cost of service.
- Supplemental Executive Retirement Plan ("SERP") PacifiCorp proposes to include
 SERP expenses in its cost of service. In prior cases, the Washington Utilities and
 Transportation Commission ("WUTC") has disallowed SERP costs and no other
 Washington electric utility recovers this expense in rates. I recommend that
 PacifiCorp's SERP costs be disallowed.
- 8. 2009 Wages PacifiCorp has proposed to increase officer/exempt 2009 salaries by
 3.5%. I recommend that those salaries be increased instead by only 2.07%.
- 18 9. Management Fee PacifiCorp has proposed to include \$7.3 million for management
 19 fees. I recommend that \$2.4 million be disallowed from this amount.
- 20 I. CASH WORKING CAPITAL ("CWC")

Q. DID THE COMPANY INCLUDE AN ALLOWANCE FOR CWC IN ITS DIRECT FILING?

- 23 A. Yes. PacifiCorp witness R. Bryce Dalley presented direct testimony which includes
- an allowance for CWC of \$11,105,103 in rate base.

Q. WHAT LEVEL OF WORKING CAPITAL WAS INCLUDED IN THE TEST YEAR BALANCES?

27 A. PacifiCorp recorded \$2,159,291 for working capital in the test year rate base.

28 Q. DO YOU CONTEST THE INCLUSION OF THIS AMOUNT IN 29 PACIFICORP'S REVENUE REQUIREMENT?

- 30 A. Yes, I do. The methodology that PacifiCorp relied on in calculating CWC does not
- 31 provide an accurate reflection of actual working capital needed by the Company. This

- 1 can be seen by comparing the Company's proposed method to another commonly used
- 2 method.

3 Q. WHAT IS YOUR RECOMMENDATION REGARDING CWC?

- 4 A. I recommend that no CWC allowance be included in PacifiCorp's revenue
- 5 requirement.

Q. WHAT WAS THE COMMISSION DECISION REGARDING CWC IN PACIFICORP'S LAST LITIGATED RATE CASE?

- 8 A. In PacifiCorp's last litigated rate case, Docket Nos. UE-061546 and UE-060817
- 9 (Consolidated), the Commission determined that, due to problems of allocation
- 10 methodology, the Company should be denied an allowance for CWC. The Company
- 11 had employed a lead-lag study, but had failed to correctly apply the WCA allocation
- 12 methodology.^{1/} My proposal achieves the same result, but for differing reasons.

Q. WHY DO YOU PROPOSE TO NOT RECOGNIZE ANY ALLOWANCE FOR CWC IN THIS PROCEEDING?

- 15 A. It has been my experience that electric utilities generally have a negative CWC
- 16 allowance when a properly calculated lead-lag study is performed. I both performed
- 17 and supervised several electric utility lead-lag studies while employed by the Missouri
- 18 Public Service Commission which have resulted in negative CWC allowances. In
- 19 fact, in Missouri, it is most often the case for electric utilities to have negative CWC
- 20 allowances for purposes of rate cases.

 $[\]stackrel{!!}{\underbrace{}} \qquad \underbrace{WUTC v. PacifiCorp}_{i}, Docket Nos. UE-061546 and UE-060817 (Consolidated), Final Order \P\P 161-164 (June 21, 2007).$

1Q.ARE YOU FAMILIAR WITH THE METHODOLOGY PROPOSED BY2PACIFICORP?

3	А.	Yes. The 45-day method (referred to as the "1/8 of O&M" method by Company
4		witness Dalley) was used predominantly before the lead-lag study concept was
5		accepted as another method for calculating the CWC allowance. The 45-day method
6		simply assumes that the utility has a 45-day revenue lag and a zero expense lag.
7		Under the 45-day method, utilities are granted 45 days worth of cash working capital
8		in rate base to compensate their assumed investment to cover utility cash expenses
9		until such funds are obtained from the utilities' ratepayers.
10 11	Q.	WHICH METHOD, THE 45-DAY METHOD OR A LEAD-LAG STUDY, PRODUCES MORE ACCURATE RESULTS?
12	А.	I believe the lead-lag study produces more accurate results. The purpose of a CWC
13		adjustment is to allow a utility to earn a rate of return on the amount of cash necessary
14		for operations that is "supported by capital on which investors are entitled to a
15		return." ^{$2/$} The lead-lag study determines who provides the amount of cash that is
16		necessary to fund operations on a day-to-day basis. If a utility spends cash for an
17		expense before the ratepayer provides cash for utility service provided, the shareholder
18		must supply that cash. However, if the utility receives cash from the ratepayer for
19		utility service provided before the utility must pay cash for expenses incurred to
20		provide that service, then ratepayers have provided the cash.

 $[\]frac{2}{2}$ <u>WUTC v. PacifiCorp</u>, Docket No. UE-050684, Final Order ¶ 189 (April 17, 2006) (stating, "[w]e agree with Staff that the objective is to quantify the amount of working capital and current assets supported by capital on which investors are entitled to a return.").

1Q.WHY IS YOUR RECOMMENDATION TO NOT INCLUDE CWC IN THE2CALCULATION OF RATE BASE REASONABLE?

- 3 A. As I stated previously, my experience would suggest that a negative CWC allowance
- 4 is a reasonable conclusion based on a properly conducted lead-lag study. The
- 5 Company's 45-day method will only produce a positive CWC calculation. The
- 6 method that PacifiCorp relied on in calculating CWC does not provide an accurate
- 7 reflection of actual working capital needed by the Company and, therefore, I
- 8 recommend that the Commission reject PacifiCorp's CWC adjustment.

9Q.ARE THERE ANY FEDERAL REGULATIONS THAT INDICATE THAT A10ZERO CWC IS REASONABLE?

- 11 A. Yes. The Federal Energy Regulatory Commission ("FERC") Code of Federal
- 12 Regulations 154.306 states:

13 **18 C.F.R. §154.306 Cash Working Capital.**

- A natural gas company that files a tariff change under this part may not 14 15 receive a cash working capital adjustment to its rate base unless the 16 company or other participants in a rate proceeding under this part 17 demonstrates, with a fully developed and reliable lead-lag study, a net 18 revenue receipt lag or a net expense payment lag (revenue lead). Any 19 demonstrated net revenue receipt lag will be credited to rate base; and, any demonstrated net expense payment lag will be deducted from rate 20 21 base.
- 22 The same standard should equally apply to electric utilities.

Q. YOU TESTIFIED EARLIER THAT IT HAS BEEN YOUR EXPERIENCE THAT ELECTRIC UTILITIES OFTEN HAVE A NEGATIVE CWC ALLOWANCE. CAN YOU CITE ANY SPECIFIC COMMISSION ORDERS WHICH RESULTED IN NEGATIVE CWC ALLOWANCES?

- 27 A. Yes. In Case No. ER-2008-0318, the Missouri Public Service Commission Order
- 28 reflected a negative CWC allowance of \$94.672 million including interest and tax

11	٨	Vac. If Ameran UE had used the methodology proposed by DecifiCorn Ameran UE
9 10	Q.	DO YOU HAVE ANY FURTHER COMMENTS REGARDING EXHIBIT NO(GRM-4)?
8		AmerenUE filed for a negative CWC allowance of $$18,350,000$. ^{5/}
7		filing AmerenUE made in Case No. ER-2010-0036. As can be seen from this exhibit,
6		I have also attached as Exhibit No(GRM-4) to this direct testimony the
5		which depict these amounts to this direct testimony as Exhibit No(GRM-3).
4		million for AmerenIP electric operations. ^{$\frac{4}{2}$} I have attached the rate base schedules
3		for AmerenCILCO, a negative \$3.040 million for AmerenCIPS and a negative \$9.031
2		Commerce Commission Order reflected a negative CWC allowance of \$1.598 million
1		offsets. ^{$\frac{3}{2}$} In Docket Nos. 09-0306 through 09-0311, Consolidated, the Illinois

A. Yes. If AmerenUE had used the methodology proposed by PacifiCorp, AmerenUE
 would have requested a CWC allowance of \$117,058,000. I have provided the calculation of
 this amount below.

Greg R. Meyer Revised Redacted Responsive Testimony Docket No. UE-100749

³/ Missouri Public Service Commission Case No. ER-2008-0318, Staff's Recommendation to Approve Tariff Sheets (Feb. 10, 2009).

⁴ <u>Central Illinois Light Company et al.</u>, Docket Nos. 09-0306 et al., Corrected Order (May 6, 2010); Exhibit No. ____ (GRM-3).

 $[\]frac{5}{}$ Exhibit No. (GRM-4) at 1, lines 6-10.

TABLE 2		
AmerenUE CWC Allowance <u>Utilizing PacifiCorp Methodology</u>		
Description	Amount (\$000)	
Total O&M Expenses	\$1,794,748	
Less Fuel & Purchased Pow	ver	
Nuclear	(\$ 72,522)	
Coal	(\$ 627,394)	
Oil	(\$ 2,106)	
Natural Gas	(\$ 27,928)	
Purchased Power	(\$ 128,333)	
Net O&M Expenses	\$ 936,465	
45-Day Factor	12.5%	
CWC Allowance	\$ 117,058	

As can be seen from the above table, there exists a significant difference
 between the results obtained from a lead-lag study and use of the 45-day method as
 proposed by PacifiCorp.

4 Q. PLEASE SUMMARIZE YOUR TESTIMONY REGARDING CWC.

5 A. I recommend the Commission recognize no CWC allowance for PacifiCorp. I also 6 recommend that the Commission approve my adjustment of \$1.3 million (Washington 7 basis) for this issue to PacifiCorp's rate case. I have shown that there exists a 8 significant difference between the CWC allowance proposed by PacifiCorp and a lead-9 lag study. I have demonstrated that a properly conducted lead-lag study may result in 10 a negative CWC allowance, and a negative CWC may be reasonable for PacifiCorp. 11 The 45-day method PacifiCorp has used to calculate the proposed allowance is not supported, which can be seen from the comparison of this method to the more widely 12

Greg R. Meyer Revised Redacted Responsive Testimony Exhibit No.__(GRM-1T)
Docket No. UE-100749 Page 8

1		accepted lead-lag method. Regardless of what method is used by PacifiCorp in any
2		future CWC proposals, it must be reliable and reflect the Company's actual
3		circumstances.
4		FERC has ruled gas utilities may only request a CWC allowance based on a
5		lead-lag study. Therefore, my recommendation for a zero CWC allowance is
6		conservative and should be the minimum adopted by the Commission. I also
7		recommend that PacifiCorp be required to perform a lead-lag study before the next
8		rate case.
9		II. INCENTIVE COMPENSATION
10 11	Q.	DID THE COMPANY INCLUDE IN ITS COST OF SERVICE, EXPENSES ASSOCIATED WITH THE PAYMENT OF INCENTIVE COMPENSATION?
12	А.	Yes. According to the direct testimony of Company witness Erich D. Wilson, at page
13		8, in this case, PacifiCorp is proposing to include \$1.4 million on a Washington
14		jurisdictional basis to cover incentive compensation payments. The \$1.4 million is the
15		test year level of incentive compensation payments.
16 17	Q.	DO YOU CONTEST THE INCLUSION OF ANY PORTION OF THIS \$1.4 MILLION?
18	А.	Yes. I recommend that half or \$700,000 of the incentive compensation expense be
19		removed from cost of service.
20	Q.	WHAT IS THE BASIS FOR YOUR PROPOSED DISALLOWANCE?
21	А.	I believe the goals for the achievement of incentive compensation payments are not
22		well defined. In my opinion, many of the goals are more related to normal job
23		requirements/duties and do not motivate employees to achieve above-average
24		performance. Furthermore, many of the goals are not quantitative, thus, making it
25		hard for an employee to gauge performance at any particular time frame. Based on
		R. Meyer Revised Redacted Responsive TestimonyExhibit No(GRM-1T)et No. UE-100749Page 9

1

2

these observations, I am recommending that one-half of the incentive payments be disallowed.

3 PLEASE DESCRIBE PACIFICORP'S ANNUAL INCENTIVE PLAN ("AIP"). 0. 4 PacifiCorp's AIP is based on the achievement of group employee goals and A. 5 achievement of individual goals. In addition to group goals and individual goals, 6 employees may be evaluated based on new issues or opportunities that affect 7 PacifiCorp during the year. 8 Employees are evaluated by their performance against six group goals. The 9 group goals describe the characteristics the Company believes are important to the 10 success of PacifiCorp. Attached as Exhibit No. (GRM-5) are the six group goals 11 and the performance factors for each group goal. PacifiCorp's employees establish 12 their own individual goals which are designed to advance the achievement of the 13 group goals of the Company. The individual goals are weighted 70% of the 14 employees' overall evaluation, while the group goals are weighted 30% towards the 15 employees' overall evaluation. 16 **Q**. PLEASE DESCRIBE WHAT STANDARDS YOU BELIEVE SHOULD BE 17 INCLUDED IN A PROPERLY CONSTRUCTED INCENTIVE PLAN. 18 A. I believe an acceptable incentive plan should be developed that contains goals that 19 improve or maintain PacifiCorp's existing operational performance. The payments 20 associated with the incentive plan should be directly related to the achievement of 21 those goals. 22 The goals for the incentive plan should be easily understood by the affected 23 employees. Employees should also easily be able to determine their performance

against those goals at any time during the year.

Greg R. Meyer Revised Redacted Responsive Testimony Docket No. UE-100749

1Q.WHAT TYPES OF GOALS WOULD YOU RECOMMEND BE INCLUDED IN2AN INCENTIVE PLAN?

- 3 A. Appropriate goals for an incentive plan could include safety, managing operation and
- 4 maintenance ("O&M") expenses, system reliability, and customer service.

5 Q. ARE YOU AWARE OF A WUTC ORDER WHICH SUPPORTS YOUR IDEAS 6 ABOUT A PROPERLY CONSTRUCTED INCENTIVE PLAN?

- 7 A. Yes. In <u>WUTC v. Washington Natural Gas Co.</u>, the Commission stated:
- 8 The Commission does agree with Staff that some of the incentives fall 9 short in terms of sending employees the message that the purpose of the program is to encourage improved service. The Commission believes 10 however that the company can do a far better job in the future of 11 12 creating incentives and setting goals that advantage ratepayers.... Such 13 goals might include controlling costs, promoting energy efficiency, providing good customer service, and promoting safety. Plans which 14 do not tie payments directly to goals that clearly and directly benefit 15 ratepayers will face disallowance in future proceedings.^{6/} 16

17 Q. ARE YOU AWARE OF ANOTHER COMMISSION DECISION WHICH 18 SUPPORTS YOUR IDEAS ABOUT A PROPERLY CONSTRUCTED 19 INCENTIVE PLAN?

- 20 A. Yes. In Union Electric Case No. EC-87-114, the Missouri Public Service Commission
- 21 stated:

At a minimum, an acceptable management performance plan should contain goals that improve existing performance, and the benefits of the plan should be ascertainable and related to the plan.^{7/}

Q. DO YOU BELIEVE THE GROUP GOALS AS LISTED IN EXHIBIT NO. (GRM-5) CONTAIN THE STANDARDS AND CRITERIA YOU DESCRIBED ABOVE?

- A. No. I have reviewed the group goals. I continue to believe that these goals do not
- 29 provide the employees with the quantitative goals to assess their performance. It is
- 30 also difficult to assess or ascertain how some of the goals improve or maintain

^{1/} <u>Staff v. Union Elec. Co.</u>, 29 Mo. P.S.C. (N.S.) 313, 325 (1987).

Greg R. Meyer Revised Redacted Responsive Testimony Docket No. UE-100749

⁶/ <u>WUTC v. Washington Natural Gas Co.</u>, Docket No. UG-920840, Fourth Suppl. Order at 19 (Sept. 27, 1993).

1		PacifiCorp's existing operational performance. Finally, I believe some of the goals
2		are more properly classified as standard job requirements/duties and therefore should
3		not be considered performance goals tied to incentive compensation payments.
4 5 6	Q.	CAN YOU PROVIDE SOME EXAMPLES OF PERFORMANCE FACTORS CONTAINED IN THE GROUP GOALS WHICH DO NOT GIVE EMPLOYEES THE ABILITY TO ASSESS THEIR PERFORMANCE?
7	А.	Yes. I have listed below certain performance factors which I believe would not be
8		easily quantifiable for use as a performance measure. These are examples from
9		PacifiCorp's AIP group goals.
10		Customer Focus:
11 12 13		• Proactively meets internal or external customer expectations by anticipating needs and effectively addressing and resolving problems, issues and concerns in a timely manner.
14		Job Knowledge:
15 16 17		• Ensures that all compliance aspects of position are known and followed; understands and complies with all policies, codes and regulations applicable to position and company.
18		Planning and Decision Making:
19		• Demonstrates high levels of personal accountability.
20		Productivity:
21		• Holds self and others accountable to quality results.
22		Builds Relationships:
23		• Accepts personal differences and values diversity.
24		Leadership:
25		• Embraces change and motivates others to achieve goals.

1		The above list contains performance factors from each of the six group goals. I
2		believe these performance factors are not quantifiable to different levels of
3		performance. For example, how would a person exceed performance for the
4		performance factor "Embraces Change and Motivates Others to Achieve Goals"?
5		These performance factors also lead to subjective evaluation by the manager.
6		Subjective evaluation of employees for incentive compensation should be minimized.
7 8 9	Q.	CAN YOU PROVIDE SOME EXAMPLES OF PERFORMANCE FACTORS WHICH YOU CONTEND SHOULD BE CONSIDERED AS A JOB COMPONENT OR REQUIREMENT?
10	А.	Yes. I have listed below certain performance factors which I believe should be
11		considered job components or requirements.
12		Customer Focus:
13 14 15		 Shares information with customers to build their understanding of issues and capabilities. Job Knowledge:
16 17		• Keeps up with current developments and trends in area of expertise as a part of personal development.
18		Planning and Decision Making:
19		• Not afraid to make decisions and ensure appropriate people are informed.
20		Productivity:
21 22		• Performs well under pressure and does not create undue pressure for others; meets deadlines.
23		Builds Relationships:
24 25		• Acts with integrity by demonstrating professional, courteous, ethical and fair behavior at all times.
26		Leadership:
27		• Demonstrates passion; personal commitment and enthusiasm.

Greg R. Meyer Revised Redacted Responsive Testimony Docket No. UE-100749

REVISED 12/6/10

1		The above list contains performance factors from each of the six group goals. I
2		believe these performance factors are more properly classified as job requirements or
3		duties. PacifiCorp claims that the AIP is to provide employees with incentives to
4		perform at an above-average level. I cannot understand, for example, why an
5		incentive plan needs to incent an employee to "act with integrity by demonstrating
6		professional, courteous, ethical and fair behavior at all times." This performance
7		factor should be a job requirement for all employees working at PacifiCorp and should
8		not be used as a performance factor for incentive compensation.
9 10	Q.	DO YOU HAVE ANY FURTHER COMMENTS REGARDING THE PERFORMANCE FACTORS CONTAINED IN THE SIX GROUP GOALS?
11	А.	Yes. I would like to point out that I only provided examples of performance factors
12		which could not be quantified or which should be job requirements. I am not
13		suggesting these examples are exhaustive, or that the categories are mutually
14		exclusive.
15		Also, referring back to Exhibit No(GRM-5), I would argue that many of
16		the performance factors do not have performance metrics associated with them to
17		determine if the operations of PacifiCorp are improved or maintained.
18 19 20	Q.	IN YOUR REVIEW OF THE COMPANY'S AIP GROUP GOALS DID YOU FIND ANY GROUP GOALS THAT COULD BE ATTRIBUTABLE TO THE ATTAINMENT OF SHAREHOLDER VALUE?
21	А.	Yes. Both the Customer Focus and Productivity performance factors have attributes
22		that are designed to enhance shareholder value.
23 24 25 26 27		• Customer Focus: Dedicated to meeting the expectations of internal and external customers, co-workers and stakeholders; obtains first-hand information from customers and uses it to improve processes and services; acts with customers in mind; establishes and maintains effective relationships with customers and gains their respect and trust.

1 2 3 4		• Productivity: Achieves a high level of relevant accomplishments for the benefit of the company and its customer. Uses appropriate methods to implement solutions; checks processes and tasks to ensure accuracy and efficiency; initiates action to correct problems or notifies others of quality issues as appropriate.
5		Along with these performance factors, many of the goals improve shareholder value.
6 7	Q.	ARE YOU REJECTING ALL OF THE PERFORMANCE FACTORS WHICH COMPRISE THE SIX GROUP GOALS?
8	A.	No. I believe that several of the performance factors which comprise the six group
9		goals would be good starting points to develop performance standards for an incentive
10		compensation plan that are understandable, quantifiable and performance-enhancing.
11		For example, a performance factor under the Planning and Decision Making
12		Goal states, "[u]ses metrics and milestones, and goal reassessment to measure
13		execution and determine whether correction to plan is needed." I believe this
14		performance factor could be used to implement several performance criteria for
15		different departments in adhering to O&M expense control.
16 17	Q.	PLEASE SUMMARIZE YOUR INCENTIVE COMPENSATION ADJUSTMENT.
18	A.	I am recommending that 50% of the incentive compensation payments be removed
19		from cost of service. I have discussed some of the concerns I have with the six group
20		goals of the AIP. The individual goals are weighted 70% while the group goals are
21		weighted 30% for the employees' overall evaluation. A 50% reduction to the
22		incentive plan is a fair and reasonable adjustment to the incentive compensation
23		expense level. I believe this is a conservative recommendation. Particularly,
24		considering the current economic environment, the Commission may wish to eliminate
25		all incentive compensation from the PacifiCorp Washington revenue requirement.

Greg R. Meyer Revised Redacted Responsive Testimony Docket No. UE-100749

1 III. NORMALIZATION OF PACIFICORP'S REVENUES

Q. DO YOU BELIEVE THE LEVEL OF ELECTRIC REVENUES IN PACIFICORP'S COST OF SERVICE IS APPROPRIATE?

- 4 A. No. PacifiCorp's proposed level of residential revenue is understated. I recommend
- 5 that the level of residential revenues be increased by approximately \$2.2 million. This
- 6 amount is net of additional fuel cost.

7 Q. WHAT IS THE TEST YEAR LEVEL OF RESIDENTIAL REVENUES?

8 A. The test year level of residential revenues is \$122,902,093.

9Q.WHAT IS YOUR PROPOSED ADJUSTMENT TO THE TEST YEAR LEVEL10OF RESIDENTIAL REVENUES?

- 11 A. I propose to decrease test year revenues by \$79,439. PacifiCorp has proposed to
- 12 decrease test year revenues by \$4,337,210.

13Q.WHAT IS THE BASIS FOR YOUR STATEMENT THAT THE LEVEL OF14RESIDENTIAL REVENUES PROPOSED BY PACIFICORP IS TOO LOW?

A. I have reviewed the usage per customer for the calendar years 2005-2009 as compared
to the Company's weather-normalized usage for the test year. Table 3 lists the annual average
usage per customer for the residential class for 2005-2009 and the test year weather

18 normalized.

TABLE 3Historic Analysis ofResidential Use per Customer		
Residential Use Per Customer (kWh)		
15,193		
15,492		
15,767		
15,612		
16,261		
15,128		
15,671		

1		Table 3 shows that the average usage per customer used by PacifiCorp to annualize	
2		residential revenues (15,128 kWh) is too low. The residential usage proposed by	
3		PacifiCorp has been exceeded for each year since 2005. The amount of normalized	
4		residential usage I recommend be used (15,671 kWh), is still lower than the actual	
5	2009 usage during the current economic recession (16,261 kWh).		
6 7	Q.	WHY IS IT IMPORTANT TO ANNUALIZE REVENUES USING THE CORRECT USAGE PER CUSTOMER?	
8	А.	It is important to annualize revenues using the correct usage per customer because that	
9		level of annualized revenues determines the incremental revenue requirement needed	
10		by the utility to pay the expenses to operate the utility and provide the opportunity for	
11		a reasonable return to shareholders. If the usage per customer is set too low, the utility	
	U	R. Meyer Revised Redacted Responsive TestimonyExhibit No(GRM-1T)et No. UE-100749Page 17	

REVISED 12/6/10

1		will collect more revenues than is necessary to pay its expenses and provide the
2		opportunity for a reasonable return to shareholders. If the usage per customer is set
3		too high, the opposite will occur.
4 5	Q.	PLEASE DESCRIBE YOUR RECOMMENDED ADJUSTMENT TO PACIFICORP'S RESIDENTIAL CLASS.
6	А.	I analyzed the residential usage per customer for the period 2005-2009 and compared
7		those usages to the level proposed by PacifiCorp. I calculated a five-year average
8		usage per customer for the residential class and multiplied that usage by the
9		normalized test year customers and the current average residential margin energy rate.
10		Based on this analysis, I believe test year residential revenues should be decreased by
11		\$79,439. Similarly, I believe PacifiCorp's proposed residential revenues should be
12		increased by \$4,257,771. Offsetting the revenues for fuel results in a revenue
13		requirement reduction of \$2,238,744 to PacifiCorp's rate case.
14		IV. SO ₂ EMISSION ALLOWANCE SALES REVENUES
15 16	Q.	WHAT WAS THE LEVEL OF SO ₂ EMISSION ALLOWANCE SALES REVENUES RECORDED DURING THE TEST YEAR?
17	A.	For the test year, PacifiCorp generated SO ₂ emission allowance sales revenues of
18		\$3,790,891 on a total Company basis (approximately \$299,113 on a Washington
19		basis).
20 21	Q.	HAS PACIFICORP INCLUDED REVENUES FROM THE SALE OF SO ₂ EMISSION ALLOWANCES IN ITS COST OF SERVICE?
22	А.	Yes. PacifiCorp has included a 15-year amortization of current and past SO ₂ emission
23		allowance sales revenues in its cost of service. The 15-year amortization of SO_2
24		emission allowance sales revenues produces a level of revenues of \$537,064 on a
25		Washington basis.

1Q.WHAT IS THE BASIS FOR THE 15-YEAR AMORTIZATION PROPOSED BY2PACIFICORP?

- 3 A. The 15-year amortization was developed through PacifiCorp's negotiation with other
- 4 parties and approved as part of the WUTC Docket No. UE-940947.^{$\frac{8}{2}$}

5 Q. DO YOU AGREE WITH THE AMOUNT PACIFICORP HAS INCLUDED IN 6 THE COST OF SERVICE?

- 7 A. No. I recommend that the sale of SO_2 allowances be amortized over five years. I am
- 8 proposing that the unamortized balance of SO_2 allowance revenues at December 31,
- 9 2009, be amortized over five years instead of the 15-year amortization proposed by
- 10 PacifiCorp.

11 Q. WHY ARE YOU PROPOSING TO AMORTIZE THE SO₂ ALLOWANCE 12 SALES OVER FIVE YEARS?

- 13 A. I believe the current 15-year amortization period is too long. The sale of SO₂
- 14 allowances is a recurring event and those revenues generated from the sale of SO₂
- 15 allowances should be flowed back to customers in a more expedited manner.

16 Q. PLEASE PROVIDE THE ANNUAL SALES OF SO₂ EMISSION 17 ALLOWANCES THAT PACIFICORP HAS MADE.

18 A. Table 4 summarizes the SO_2 allowances sales PacifiCorp has made since 1994.

<u>&</u> <u>WUTC v. PacifiCorp</u>, Docket No. UE-940947, Final Order at 3 (September 14, 1994).

T	ABLE 4
PacifiCorp Sales of S	SO ₂ Emission Allowances ¹

¹ Source: Company Exhibit(² Sales through February 2010.	RBD-3) attached workpapers 3.4.1-3.4.3.

1 As can be seen from the above table, the sales of SO₂ allowances are an 2 annually recurring event. However, the amount of revenues received from those sales 3 varies from year to year. 4 I agree with PacifiCorp that the proper way to flow these revenues back to ratepayers is through an amortization of past sales. However, I contend that a 15-year 5 6 amortization is too long. 7 Q. WHY DID YOU CHOOSE A FIVE-YEAR AMORTIZATION PERIOD? 8 A. Generally, five-year amortizations are proposed when addressing extraordinary events, 9 or recurring events with impacts that cannot be easily predicted. For example, when a

Greg R. Meyer Revised Redacted Responsive TestimonyExhibit No.__(GRM-1T)Docket No. UE-100749Page 20

REVISED 12/6/10

1		major storm strikes the service territory of a utility, the utility is usually granted
2		recovery of those external costs over five years. Five years, in my experience, is
3		generally the most widely accepted amortization period for extraordinary events or
4		recurring events with volatility unless a trend in the activity can be observed.
5		Obviously, shorter and longer amortizations have been adopted by commissions, but
6		five years is generally appropriate and reasonable.
7		In this instance, a five-year amortization period is more appropriate because it
8		credits customers' rates in a more timely manner from the sales of SO ₂ allowances. A
9		shorter amortization period is also appropriate in this case because it reduces the
10		impact of PacifiCorp's 21% proposed rate increase.
11 12	Q.	WHAT IS THE TOTAL VALUE OF YOUR SO2 ALLOWANCE SALES ADJUSTMENT?
13	A.	Reducing the amortization period for SO ₂ allowances from 15 years to 5 years reduces
	A.	
14	А.	revenue requirement by \$281,450 on a Washington jurisdictional basis. I am
	А.	
14	Α.	revenue requirement by \$281,450 on a Washington jurisdictional basis. I am

PacifiCorp is proposing a level of SO ₂ sales revenues of \$537,064. Therefore, I am proposing that PacifiCorp's revenue requirement be reduced by \$281,450. V. PRO FORMA WAGE INCREASE DID PACIFICORP INCLUDE PRO FORMA WAGE INCREASES IN ITS COST OF SERVICE?

Greg R. Meyer Revised Redacted Responsive Testimony Docket No. UE-100749

1Q.DO YOU CONTEST THE INCLUSION OF THIS AMOUNT IN2PACIFICORP'S REVENUE REQUIREMENT? PLEASE EXPLAIN.

A. Yes, I do. PacifiCorp has selectively chosen to propose that its wages be increased in
2010 without demonstrating that all relevant factors of the revenue requirement have
been considered. In other words, PacifiCorp has chosen to include one item of cost of
service to increase the revenue requirement without examining all the operations of
the Company to determine if there are corresponding offsets to the wage increase.

8 Q. WHEN DO THE 2010 PACIFICORP WAGE INCREASES TAKE EFFECT?

9 A. The wage increases take effect during various times in the year. Wage increases occur
10 in January, February, July, and October 2010.

11 Q. WHAT IS A TEST YEAR AND WHAT IS ITS IMPORTANCE?

12 A. A test year is established in a rate case to allow all parties to audit/review a common 13 period of costs of a utility and to provide the Commission a common starting point on 14 which to evaluate different parties' positions. It is my understanding that in 15 Washington, the matching principle requires that all cost of service components— 16 revenue, investment, expenses, and cost of capital—must be considered and evaluated at a similar point in time.⁹ A test year allows for the preparation of a reconciliation to 17 18 capture all parties' positions. A fully audited historic test year should establish a 19 relationship between rate base, expenses and revenues that the utility expects to 20 experience during the years rates are in effect. Therefore, proposing an adjustment 21 that encompasses a period of time beyond the test year should require the utility to 22 demonstrate that an isolated test year adjustment is needed within the context of a rate

⁹ <u>WUTC v. PacifiCorp</u>, Docket No. UE-050684, Final Order ¶ 194 (April 17, 2006).

- 1 case in order to earn its authorized return during the years when the proposed rates are 2 in effect. 3 Once a party suggests that post test year adjustments should be included in cost 4 of service, that party should be required to demonstrate that all relevant factors which 5 are subject to audit for the test year have been considered and this isolated adjustment 6 must still be recognized. Certain other expenses beyond the test year may decrease 7 from test year levels. In addition, revenues may increase and rate base may decline. 8 This Commission has discussed this issue at length in recent rate case decisions: 9 [F]or expense or revenue items, pro forma adjustments must be Offsetting factors, as the term 10 matched with offsetting factors. suggests, diminish the impact of the known and measurable event. A 11 12 mismatch would be created if offsetting factors are not taken into account. That is, the known and measurable change will be overstated 13 14 or understated, distorting the test year relationships among revenues, expenses, and rate base. $\frac{10}{}$ 15 16 The matching principle requires that all factors affecting a proposed 17 pro forma change be considered in determining the pro forma level of This includes consideration of offsetting factors such as 18 expense. 19 efficiency gains that may or may not be associated directly with the 20 proposed pro forma adjustment.... We emphasize that there are two 21 aspects to the consideration of offsetting factors. First, there should be 22 evidence showing consideration of whether a proposed increase in 23 expense directly produces any offsetting benefits.... On the other hand 24 contemporaneous changes in revenues or expenses [may occur] 25 that are not directly related to the proposed pro forma adjustment, but which offset its financial impacts. $\frac{11}{2}$ 26 27 In this case, PacifiCorp has asked to increase test year expense for 2010 wage

28

increases without any analysis that all other elements of test year costs will remain

Greg R. Meyer Revised Redacted Responsive Testimony Docket No. UE-100749

^{10/} WUTC v. Avista Corp., Docket Nos. UE-090134, UG-090135 & UG-090518, Final Order ¶ 46 (Dec. 22, 2009) (emphasis added).

^{11/} WUTC v. Puget Sound Energy, Inc., Docket Nos. UE-090704 and UG-090705, Final Order at 27-28 (April 2, 2010) (emphasis added).

1	unchanged. This produces a potential mismatch between proposed revenues, expenses
2	and rate base.

Q. YOU MENTIONED THE POSSIBILITY THAT SOME POST TEST YEAR EXPENSES COULD BE LOWER, THEREBY OFFSETTING THE 2010 WAGE INCREASE. HAVE YOU IDENTIFIED ANY SUCH POSSIBLE OFFSETS?

- 7 A. Yes. Several offsets come to mind. One offset is the revenues that will be generated
- 8 from the sale of SO_2 allowances in 2010 if the Commission adopts my
- 9 recommendation to amortize the 2009 unamortized revenue balance over five years.
- 10 The SO_2 adjustment that I propose does not reflect any SO_2 revenues from sales in
- 11 2010. As can be seen from Table 4 of my testimony, PacifiCorp has already made
- 12 \$402,500 of SO₂ allowance sales through February 2010. The additional jurisdictional
- 13 revenues can be offset against the pro forma wages.
- 14 The other offset relates to the Powerdale Hydro Removal adjustment proposed
- by the Company. It is my understanding that at the end of 2010, the amortization of
- 16 the regulatory asset will cease and expense savings will be realized going forward.
- 17 This is about \$586,333 in Washington savings. Again, these expense savings could be
- 18 used to offset the wage increases.

Finally, PacifiCorp has experienced workforce reductions since the end of the test year. Therefore, the level of payroll included in the Company's rate case is overstated. Combining all of these events together would easily offset the 2010 wage increase and produce a lower revenue requirement. For example, despite the Company's statement that it has no plans to make workforce reductions, its number of Full Time Equivalent employees ("FTEs") steadily declined throughout 2009 and into 2010. Since December, 2009, PacifiCorp has eliminated 1% of non-union FTEs and

Greg R. Meyer Revised Redacted Responsive Testimony Docket No. UE-100749

2		FTEs by 2% and union FTEs declined by 4%. ^{13/} The workforce declines have been
3		constant and are continuing for union positions. ^{14/} PacifiCorp has not been able to
4		calculate the payroll expense impact of workforce reductions that have occurred since
5		December 31, 2009. ^{15/}
6	Q.	WHY HAVEN'T YOU PROPOSED SUCH AN ADJUSTMENT?
7	A.	I have not proposed those isolated adjustments because I have not performed an audit
8		of all the relevant factors of PacifiCorp's operations beyond the test year to determine
9		if those adjustments are warranted. I cannot state that the relationship of revenues,
10		expenses, and rate base established using test year data would be significantly
11		impacted by proposing those adjustments.
12	Q.	PLEASE DESCRIBE YOUR RECOMMENDATION.
13	A.	Since all relevant factors have not been considered and PacifiCorp has not shown that
14		the relationship between rate base, expenses and revenues from the audited test year
15		needs to be adjusted, I recommend that the Commission not adjust test year expense
16		for the 2010 wage increase. PacifiCorp's proposed electric cost of service should be
17		reduced by \$373,895. If the Commission does not accept my wage adjustment, then
18		the Commission should make other adjustments to reflect savings

1

Greg R. Meyer Revised Redacted Responsive Testimony Docket No. UE-100749

Exhibit No. (GRM-6) at 2-3 (PacifiCorp's Response to Public Counsel Data Request No. 64, Attachment). (Between January and June, 2010, non-union FTEs decreased from 2384 to 2360.5. During the same period, union FTEs decreased from 3247 to 3220.5).

^{13/} <u>Id.</u> (Between January, 2009 and June, 2010, the number of non-union FTEs decreased from 2409 to 2360.5 and the number of union FTEs decreased from 3351.5 to 3220.5).

^{14/} Id. at 6-7 (PacifiCorp's Response to Public Counsel Data Request No. 119,

1		that have not been reflected in the test period, which would likely result in a larger	
2		revenue requirement reduction.	
3		VI. LEGAL EXPENSES	
4 5	Q.	WHAT LEVEL OF EXPENSE HAS PACIFICORP INCLUDED IN THE COST OF SERVICE FOR OUTSIDE LEGAL FEES?	
6	А.	PacifiCorp has included for outside legal expense. This amount is also the	
7		test year level of expense in this case.	
8	Q.	DO YOU CONTEST ANY OF THIS AMOUNT?	
9	А.	Yes. I believe a reduction of \$48,931 should be made to that total.	
10	Q.	PLEASE EXPLAIN YOUR ADJUSTMENT FOR LEGAL EXPENSE.	
11	А.	PacifiCorp allocates its outside legal expenses using a system overhead allocation	
12		factor. While it may be appropriate for some legal costs to be allocated system-wide,	
13		other costs are not appropriate for such allocation methodology. For example, legal	
14		costs specific to an issue in a specific jurisdiction should be directly assigned to that	
15		jurisdiction.	
16		My adjustment eliminates the legal expense associated with proceedings that	
17		are not related to Washington operations. It is my position that legal costs relating to	
18		specific jurisdictions should be directly assigned to those jurisdictions.	
19 20	Q.	HOW MUCH DO YOU PROPOSE TO ELIMINATE FROM LEGAL EXPENSES INCLUDED IN THE TEST YEAR?	
21	А.	Based upon my review of the confidential response to Public Counsel Data Request	
22		No. 95, I am proposing that \$48,931 be disallowed.	
23	Q.	PLEASE EXPLAIN HOW THIS AMOUNT WAS DERIVED.	
24	А.	In response to Public Counsel Data Request No. 95, Confidential Attachment PC 95,	
25		the Company provided the net variance between directly assigning all outside legal	

Greg R. Meyer Revised Redacted Responsive Testimony Docket No. UE-100749

1		expenses incurred during the test year as opposed to allocating these on the SO basis.
2		The total legal expenses allocated to Washington using the SO factor were
3		Directly assigning these same expenses on a WA Situs basis reduces the cost to
4		Washington to for a net variance of \$48,931. I have not analyzed the
5		prudency of the individual expenditures of legal fees.
6		VII. SUPPLEMENTAL EXECUTIVE RETIREMENT PLAN
7 8	Q.	PLEASE EXPLAIN YOUR ADJUSTMENT RELATED TO PACIFICORP'S SERP.
9	А.	PacifiCorp has included in test year operating expenses \$169,675. $\frac{16}{1}$ I am
10		recommending that this entire amount be disallowed from rates. SERP provides
11		substantial post-retirement benefits to certain executives beyond what the Internal
12		Revenue Service guidelines allow for tax purposes and what is received in the
13		Company's general retirement plan.
14 15	Q.	ARE THERE ANY CURRENT EMPLOYEES COVERED BY PACIFICORP'S SERP PLAN?
16	A.	There is one. In its 2010 10-K, PacifiCorp stated that "Mr. Walje was the only NEO
17		[Named Executive Officer] who participated in our SERP during 2009, and we have
18		no plans to add new participants in the future." This means that most costs are
19		attributable to retired employees who are no longer providing service to Washington
20		ratepayers and that SERP is not necessary for attracting or retaining employees. Mr.
21		Walje is President of Rocky Mountain Power.

^{16/} Exhibit No. (GRM-6) at 1 (PacifiCorp's Response to Public Counsel Data Request No. 5 First Revised).

1Q.DO ANY OTHER REGULATED ELECTRIC UTILITIES RECOVER SERP22COSTS THROUGH RATES IN THIS STATE?

No. Avista Utilities does not include SERP in above-the-line expenses. $\frac{17}{1}$ In addition, 3 Α. 4 this Commission rejected a request by Puget Sound Energy ("PSE") to include SERP 5 costs in rates. In its Final Order in the most recent PSE rate case, the Commission 6 stated: 7 [W]e find persuasive the arguments recommending removal of [SERP] 8 PSE has failed to provide an adequate justification for costs. 9 continuing to require ratepayers to fund supplemental retirement 10 benefits for a small number of executives who already are highly 11 compensated and entitled to the same levels of qualified retirement plan benefits as other employees, within the limits of what the IRS allows. $\frac{18}{}$ 12 13 It is my understanding that the Commission's holding in the recent PSE case is 14 in keeping with its prior treatment of supplemental retirement program costs. 15 In WUTC v. Washington Water Power Co., the Commission disallowed 16 "supplemental pensions" for retired employees, accepting the argument that the 17 Company had not shown "any improvement to productivity among current employees 18 to justify" costs, finding that the pensions appeared to be "gifts, which should be contributed by shareholders rather than rate pavers." $\frac{19}{10}$ 19

¹⁸/ <u>WUTC v. Puget Sound Energy, Inc.</u>, Docket Nos. UE-090704 and UG-090705, Order No. 11 ¶¶ 74-81 (April 2, 2010).

^{19/} WUTC v. Washington Water Power Co., Docket No. U-85-36, Third Suppl. Order, pp. 26-27 (April 4, 1986).

1		VIII. 2009 WAGES
2 3 4	Q.	HAS PACIFICORP PROPOSED TO INCLUDE WAGE INCREASES THAT WENT INTO EFFECT DURING CALENDAR YEAR 2009 IN ITS COST OF SERVICE?
5	A.	Yes. PacifiCorp has proposed to reflect all wage increases that took effect during
6		2009 for all of its employees. ^{20/}
7 8	Q.	ARE YOU CONTESTING ANY OF THE WAGE INCREASES THAT WENT INTO EFFECT DURING 2009?
9	A.	Yes. I recommend that the wage increase applicable to the Officer/Exempt Labor
10		Group be held to the average increase granted to the other labor groups. The overall
11		average granted to all non-officer/exempt labor groups was 2.07% during 2009. This
12		adjustment to the Officer/Exempt Labor Group would lower PacifiCorp's cost of
13		service and test year expenses by \$128,366 (WA Situs) for base payroll and payroll
14		taxes.
15		Table 5 provides the wage increase and effective date of that increase for each

16 labor group of PacifiCorp.

^{20/} Exh. No. __ (RBD-3) at 4.3.3.

	TABLE 5		
PacifiCorp's Perception Wage Increase Analysis			
Labor Group	Effective Date <u>of Wage Increase</u>	Wage Increase Percentage	
Officer/Exempt	January 2009	3.50%	
IBEW 125	February 2009	2.50%	
IBEW 659	February 2009	2.50%	
UWUA 197	September 2009	1.25%

Source: Exhibit(RI	BD-3), page 4.3.3		

- 1 The adjustment I am proposing would lower the Officer/Exempt wage increase to
- 2 2.07% for 2009.

3 Q. HOW DID YOU CALCULATE THE 2.07% WAGE INCREASE?

- 4 A. The 2.07% wage increase represents the average wage increase granted to all the other
- 5 labor groups listed in Table 5 for 2009.
- 6 The Company provided the wages booked through 2009 and the wage
- 7 increases granted within the year. I calculated the wage increase granted to the
- 8 Officer/Exempt employees and eliminated it. Then, I calculated the average wage
- 9 increase granted to the other employee groups, 2.07%, and I applied this wage
- 10 increase to the Officer/Exempt Labor Group.

1 2	Q.	WHY IS THE 2.07% AVERAGE WAGE INCREASE APPROPRIATE FOR THE OFFICER/EXEMPT LABOR GROUP?
3	А.	The Officer/Exempt Labor Group represents the Executive Managers and other
4		salaried employees of PacifiCorp. Generally, these employees consist of the higher
5		paid employees of the Company.
6		In its testimony, PacifiCorp does not provide adequate justification why this
7		labor group should receive one of the highest wage increases for 2009. I have merely
8		reduced that wage increase percentage to match the overall increase provided to the
9		employees of PacifiCorp.
10 11	Q.	ARE YOU AWARE OF ANY UTILITIES WHICH HAVE LIMITED THE WAGE INCREASES FOR ITS EXECUTIVES?
	Q. A.	
11	-	WAGE INCREASES FOR ITS EXECUTIVES?
11 12	-	WAGE INCREASES FOR ITS EXECUTIVES? Yes. In 2009, Avista Utilities did not grant its executives any pay increase. ^{$21/$}
11 12 13	-	 WAGE INCREASES FOR ITS EXECUTIVES? Yes. In 2009, Avista Utilities did not grant its executives any pay increase.^{21/} In 2009, Puget Sound Energy's Named Executive Offices ("NEO") saw an

 11 12 13 14 15 	-	 WAGE INCREASES FOR ITS EXECUTIVES? Yes. In 2009, Avista Utilities did not grant its executives any pay increase.^{21/} In 2009, Puget Sound Energy's Named Executive Offices ("NEO") saw an average wage increase of less than 2% with two executives including the CEO receiving only 0.6% increases.^{22/}

^{21/} <u>WUTC v. Avista Corp.</u>, Docket Nos. UE-100467 and UG-100468, Direct Testimony of Elizabeth M. Andrews (Exhibit EMA-1T) at 45: 13-14 (Mar. 23, 2010).

In addition, in 2009, non-equity incentive compensation for the Company's NEOs fell an average 38%.
 See Puget Energy Form 10-K, at 70 (filed Feb. 26, 2010).

^{23/} <u>Union Electric Company, d/b/a AmerenUE</u>, Case No. ER-2010-0036, Rebuttal Testimony of AmerenUE witness Krista G. Bauer at 12 (February 11, 2010).

1	Q.	ARE YOU AWARE OF ANY UTILITY WHICH HAS COMPLETELY
2		REMOVED EXECUTIVE SALARIES FROM THEIR PROPOSED COST OF
3		SERVICE?

4	А.	Yes. Ameren Illinois Utilities ("AIUs") removed the salaries from the five highest
5		paid executive officers, as well as all incentive compensation paid to officers and
6		removed all incentive compensation related to earnings-type goals for all non-officer
7		employees. Below, I have included that portion of the direct testimony of Craig D.
8		Nelson, Vice President of Regulatory Affairs and Financial Services, from Docket
9		Nos. 09-0306 through 09-0311 (Pages 9-10 of Ameren Exhibit 1.0E).
10 11 12		Q. ARE THE AIUS OFFERING TO SHOULDER ANY OF THE FINANCIAL BURDEN TO MITIGATE THE IMPACT OF THESE PROPOSED INCREASES ON THEIR CUSTOMERS?
13 14 15		A. Yes, as I mentioned, due to today's difficult economic climate and its impact on its customers, the AIUs are voluntarily <u>not</u> seeking recovery of:
16 17 18 19 20		• All incentive compensation paid to officers of Ameren Corporation and its subsidiaries (including the AIUs). The amount allocated to and/or incurred by the AIUs for which the AIUs are not seeking recovery is approximately \$2.2 million.
21 22 23 24		• The portion of incentive compensation paid to employees which is based on earnings-type goals. The amount incurred by and/or allocated to the AIUs for which we are not seeking recovery is approximately \$1.2 million.
25 26 27 28 29 30 31		• Compensation paid to the five highest-paid executive officers for 2008 (as reported in the Notice of Annual Meeting of Shareholders and Proxy Statement of Ameren Corporation dated March 11, 2009) which is allocated to the AIUs. The amount allocated to the AIUs for which the AIUs are not seeking recovery is approximately \$2.9 million.

1		IX. MANAGEMENT FEE
2 3	Q.	PLEASE DESCRIBE THE "MANAGEMENT FEE" THAT PACIFICORP HAS INCLUDED IN ITS TEST YEAR OPERATING EXPENSES.
4	А.	PacifiCorp pays an annual "Management Fee" to Mid-American Energy Holdings
5		Company ("MEHC") under an "Intercompany Administrative Services Agreement."
6		The Services Agreement allocates certain of MEHC's costs to its subsidiaries. The
7		Agreement describes "Administrative Services" as including, but not being limited to:
8		services by executive, management, professional, technical and clerical employees;
9		financial services tax and accounting services; use of office facilities; and use of
10		vehicles and equipment. ^{$24/$}
11		In 2009, PacifiCorp booked \$8,353,029 above-the-line for MEHC management
12		fees. Before allocating any portion of this to Washington operations, PacifiCorp
13		removed \$1,053,029 of this amount pursuant to MEHC merger commitment WA-4(b)
14		in Order 07, Docket No. UE-051090, which caps the amount allowable for the fee at
15		7.3 million. ^{25/} The Washington-allocated portion of the resulting 7.3 million fee is
16		\$540,784. ^{26/}
17 18 19	Q.	PLEASE DESCRIBE THE TEST YEAR LEVEL OF EXPENSE AND THE COMPANY'S PROPOSED ADJUSTMENT TO THE TEST YEAR EXPENSE LEVEL.
20	A.	The test year level of MEHC fees for the Washington jurisdiction totaled \$618,792.
21		PacifiCorp proposed an adjustment to reduce the test year level of expense by \$78,012

Greg R. Meyer Revised Redacted Responsive Testimony Docket No. UE-100749

Exhibit No.__(GRM-6) at 9-11 (PacifiCorp's Response to Staff Data Request No. 25, Attachment 2, p. 1).

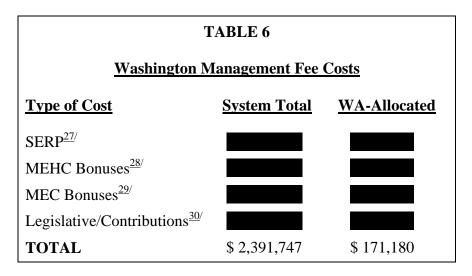

<u>25/</u> <u>Id.</u> at 9

 $[\]frac{26}{10}$ Id. at 4 (PacifiCorp's Response to Public Counsel Data Request No. 83(c) (stating that the management fee is allocated based on the SO factor).

to comply with the merger commitment discussed above. Therefore, PacifiCorp is
 proposing a level of Washington MEHC fees of \$540,784.

3 Q. ARE YOU RECOMMENDING A DISALLOWANCE OF ANY OF THE 4 AMOUNT THAT PACIFICORP DID NOT REMOVE?

- 5 A. Yes. I am recommending that the amount included in Washington rates be further
- 6 reduced by \$171,180 to reflect disallowance of costs included in the management fee
- 7 that are not appropriate for inclusion in Washington rates. The effect of my proposal
- 8 would set the MEHC management fees at approximately \$363,600. Specifically, these
- 9 costs are: MEHC and MidAmerican Energy Company ("MEC") bonuses, costs of the
- 10 SERP, and legislative costs and contributions. Table 6 summarizes the adjustment
- 11 that I am proposing.

<u>29/</u> <u>Id.</u>

^{30/} PacifiCorp's Response to Public Counsel Data Request No. 103, Confidential Attachment.

- 4 A. No. The Commitment to reduce the management fee established in Docket
- 5 No. UE-051090 appears to be designed to limit allowable management fees and says
- 6 nothing of any disallowed amounts covering those types of expenses that should be
- 7 booked below-the-line or otherwise not charged to PacifiCorp's Washington
- 8 customers. Moreover, the total amount of inappropriate costs well exceeds the \$1
- 9 million removed for compliance with UE-051090. Therefore, the UE-051090
- 10 limitation should be considered before inappropriate costs are removed.

Q. IS THERE SUPPORT FOR YOUR RECOMMENDATION IN PACIFICORP'S OWN ADMINISTRATIVE SERVICES AGREEMENT WITH MEHC?

- 13 A. Yes. According to the terms of the Services Agreement, PacifiCorp must bear those
- 14 costs that are inappropriate for recovery in each state where it operates.
- 15 Article 4(a)(iii) of the Agreement states:

16It is the responsibility of rate-regulated Recipient Parties to this17Agreement [i.e., PacifiCorp] to ensure that costs which would have18been denied recovery in rates had such costs been directly incurred by19the regulated operation are appropriately identified and segregated in20the books of the regulated operation.^{31/}

21Q.COULD YOU PLEASE EXPLAIN YOUR ADJUSTMENT FOR SERP22COSTS?

23 A. As previously discussed in my testimony, SERP costs should not be recovered through

24 rates. Exhibit No.___(GRM-6), which is PacifiCorp's response to WUTC Staff Data

25 Request No. 25, shows that is included in the management fee for 2009

Greg R. Meyer Revised Redacted Responsive Testimony Docket No. UE-100749

^{31/} Exhibit No.__ (GRM-6) at 14 (PacifiCorp's Response to Staff Data Request No. 25, Attachment 2, p. 3) (emphasis added).

SERP costs, the Washington-allocated portion of which is
 the entire Washington-allocated portion.

Q. PLEASE EXPLAIN THE DISALLOWANCE YOU ARE RECOMMENDING FOR MEC AND MEHC BONUSES.

A. PacifiCorp has included in Washington rates for annual bonuses paid to
MEC and MEHC executives.^{32/} I am recommending disallowance of this entire
amount because, after a review of page 125 of PacifiCorp's Form 10-K, it appears that

these bonuses are tied to performance of PacifiCorp's parent company and therefore

- 9 not closely aligned to customer-related performance at the utility level.
- 10 Unlike incentive compensation at the utility-company level, MEHC and MEC
- 11 performance naturally relates more to financial success of the parent corporation, the
- 12 focus of which is on the financial performance of subsidiaries. MEHC's Form 10-K,
- 13 page 144, states that the objective of annual bonus awards is to "reward the
- 14 achievement of significant annual corporate goals." The annual bonuses are given on
- 15 a subjective basis, but are based on defined objectives that "commonly include
- 16 financial and non-financial goals." MEHC's 10-K, on page 143, states that the annual
- 17 incentive awards are part of an overall compensation philosophy meant to "create
- 18 significant value for [MEHC]."

8

19Q.WHY ARE YOU RECOMMENDING DISALLOWANCE OF20LEGISLATIVE/CONTRIBUTION COSTS?

A. I have been informed that the Commission's rules prohibit recovery through rates for
 costs associated with lobbying or influencing legislation. WAC 480-100-213 states in
 part: "The [C]ommission will not allow either direct or indirect expenditures for

<u>32</u>/ <u>Id.</u> at 10-11(PacifiCorp's Response to Staff Data Request No. 25, Attachment 1).

10	Q.	DOES THIS CONCLUDE YOUR DIRECT TESTIMONY?
9		removed completely pursuant to WAC 480-100-213.
8		The Washington-allocated portion of legislative costs is which I have
7		regulatory costs, as there are separate "Regulatory" and "Regulation" cost categories.
6		"Legislative (includes contributions)." This amount does not appear to include
5		No. 103 shows that the Company has included on a system-basis for
4		public office holders" PacifiCorp's response to Public Counsel Data Request
3		or opposition to ballot measures, legislation, candidates for a public office, or current
2		political or legislative activities include, but are not limited to[e]ncouraging support
1		political or legislative activities for rate-making purposes For purposes of this rule,

11 A. Yes, it does.
