reference Docket UE 200980

Hello.

I have a question...last year when they attempted the raise if we could not be at the meeting we could call with our comments, is that available this year?

I know that they tried to propose a 7+ % increase last year but got the 1.9%, so I see this year they are trying to get the rest of the % they did not get last year this year...this is so the wrong time to do this and what an increase!!!!

Lots of people are struggling to pay their electricity, and they want to increase it more???? My goodness. I know these private shareholders are not hurting, and want their raises...they should be like the rest of us, no raises!

Anyhow, how can one comment to the hearing without being there?

Thank you,  
Dana
