# Microsoft Corporation's Special Contract Final Renewable Portfolio Standard Compliance Report for the 2021 Compliance Year pursuant to UTC Order 06 in Docket UE-161123

(REDACTED)

# Microsoft Corporation Special Contract Final Renewable Compliance Report – 2021 Docket UE-161123

Under the Special Contract and Settlement Stipulation and Agreement ("Settlement") the Washington Utilities and Transportation Commission ("Commission") approved in the above-referenced docket, Microsoft Corporation committed to meeting a certain percentage of its load taking service under the Special Contract with Eligible Renewable Resources. For 2021, the applicable percentage was 40%. <sup>1</sup>

The Special Contract and Settlement commit Microsoft to providing Puget Sound Energy ("PSE") with an annual renewable portfolio standard report ("RPS Report") by March 31 of each year identifying the renewable resources Microsoft has secured to meet its renewable energy requirement for the target year, which PSE then files with the Commission.<sup>2</sup> The Commission acknowledged Microsoft's compliance with this requirement in this docket on August 12, 2021.

Neither the Special Contract nor the Settlement explicitly require Microsoft to file a final compliance report demonstrating that it actually achieved compliance with the renewable energy requirement. Nevertheless, Microsoft is submitting this final compliance report for 2021 both because it believes such a report is contemplated by the Special Contract and Settlement and because Microsoft committed to providing such a report in its 2021 RPS Report.<sup>3</sup>

The renewable generation acquired for Microsoft's 2021 compliance year is summarized below by vintage year and fuel type. The total number of RECs retired equals 100% of the MWhs Microsoft purchased under the Special Contract in 2021.<sup>4</sup>

<sup>&</sup>lt;sup>1</sup> Special Contract § 4.9.2.1(b); Settlement ¶ 13.a.

<sup>&</sup>lt;sup>2</sup> Special Contract § 4.9.3; Settlement ¶ 13.a.vi.

<sup>&</sup>lt;sup>3</sup> Microsoft Annual Renewable Portfolio Standard Report for the 2021 Target Year at 2 § 3.

<sup>&</sup>lt;sup>4</sup> Microsoft's 2021 RPS report identified MWhs as the average load anticipated to be served under the Special Contract in 2021, and MWhs as the renewable energy target. *Id.* at 1 § 2. Microsoft's actual load served under the Special Contract in 2021 was MWhs and, thus, was lower than forecasted, due primarily to reduced campus usage from the COVID-19 pandemic.

Summ	ary of 2021 MSFT R	CW 19.285.	040 Complianc	ee
