Re: UE-180271: 2018 All Resources RFP Close-out report

Dear Mr. Johnson:

Puget Sound Energy (“PSE”) completed its 2018 All Resources RFP (the “2018 RFP”) process on February 3, 2021. Consistent with the new requirements of Washington Administrative Code (“WAC”) Chapter 480-107-145(2), PSE is filing with the Washington Utilities and Transportation Commission (the “Commission” or “WUTC”) the following summary report in Docket UE-180271.

It is important to note that the 2018 RFP was substantially complete at the time WAC 480-107-145 was amended and the new rules took effect on December 28, 2020. While the majority of the information required under WAC 480-107-145(2) was collected as part of the 2018 RFP process, some informational requirements was not. Specifically, the requirements that electrical companies collect and report information about bids for projects located in areas designated as highly impacted communities (subsection (2)(e); information about bidder diversity (subsection (2)(f)), and whether certain labor standards were met (subsection (2)(h)). Although this information was not requested at the time the 2018 RFP evaluation was conducted, PSE endeavored to collect this information from bidders through an informal survey. However, because only a small number of bidders responded to the survey, PSE does not view this sampling of responses as a representative sampling of the 2018 proposals, nor is it indicative of what PSE may encounter in future procurement processes.
