Qwest's Performance Assurance Plans (PAPs)

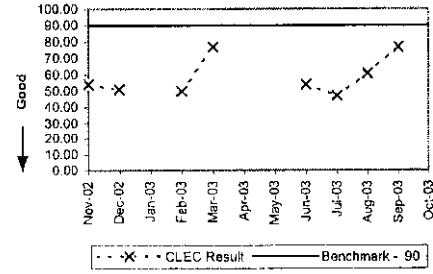

PAP specific statistical parameters are unique in some cases. For example, some PAPs apply a range of critical values dependent on the type of product and volume of orders. Accordingly, the critical z-values and resulting parity scores reflected in this report may differ from critical z-values and resulting parity values used to calculate PAP payments. For CLECs who have opted into a QPAP, the critical z-values and parity values applicable under the PAP will be applied and reflected in the CLEC payment summaries provided with any payments made.

The numerator and denominator of each performance result will be the same in both instances.
