Cascade's Response to UTC Staff Data Request No. 46

**September 25, 2024**

**BEFORE THE WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION**

**Docket UG-240008  
Cascade Natural Gas Corporation  
2024 General Rate Case**

**WUTC STAFF DATA REQUEST NO. 46:**

**Re: Capital Additions**

As per the testimony of Patrick C. Darras PCD-1T, at page 3 line 2, the Plant Additions are for two provisional periods, provide the actual additions in comparison to the provisional amounts to date by months.

**First Supplemental Response:**

Attached as Attachment A “240008-CNGC-First Supp Resp-WUTC Staff DR-46-Attach A.xlsx” to Cascade Natural Gas Corporation’s (“Cascade”) First Supplemental Response to WUTC Staff Data Request No. 46, please find the comparison of provisional plant additions to 2024 actual plant additions by month, updated through June 2024 (see tab “Variance Analysis”). Attachment A also includes a second tab “MYRP Plant Update” that outlines known project movements between provisional years.

Please note, many provisional plant additions are currently accounted for as construction work in progress (CWIP) as they are still in the construction phase. These will not close out to plant in service until later in the year as those projects are completed.
