Witness: Ronald J Amen

Request No.: UG-181053 WUTC DR 139

139. Please provide the most recent natural gas end use survey/report.

Response:

NW Natural does not conduct or produce a survey or report detailing its customers' natural gas end uses. At the time a residential customer elects natural gas service, the Company does collect data on the applicant's equipment at the in-service date. These data are recorded in the Customer Information System and used for billing and operational purposes.

Please see "UG-181053 WUTC DR 139 Attachment 1" for a list of equipment installed at beginning of service for the Company's Washington residential customers for the 10 year period 2008 through 2018. This is the date range suggested by Staff in a phone conversation.
