38. Please provide the following information for the last five years (2013-2018). Information from Commission Basis Reports can be used if appropriate.

- a) Actual usage per schedule;
- b) Weather normalized usage per schedule, if applicable;
- c) Actual number of customers per schedule;
- d) Actual usage per customer per schedule;
- e) Weather normalized usage per schedule, if applicable.

Response:

The Company has provided the information for the years 2013-2018, recognizing that it represents six years of data. Note that our data source are the data filed in the workpaper, "181053-NWN-KSM-WP4-1-4-2019.xlsx" and not the Commission Basis Report (CBR). The Company's CBR normalizes load on a class basis (residential and commercial), and not per schedule.

Please see the attachment, "UG-181053 WUTC DR 38 Attachment 1." The information for parts (a) through (e) can be found in the following workbook tabs:

- (a) Volumes.
- (b) Weather Normalized Usage.
- (c) Customers.
- (d) Actual UPC.
- (e) Weather Normalized UPCs. The Company understands this request to mean the weather normalized usage *per customer* per schedule.
