Dear UTC records UTC,

Dear Commissioners,

You have a responsibility to utility companies and shareholders but you have a greater responsibility to the people of our state and our environment. Start investing in alternate energy sources and mandate that utility companies decrease their rates by a very small margin (which will decrease their profits by very small margin). The people of WA state will not tolerate the gouging of the environment nor our citizens. Consider the aggregate annual bonuses and salaries of ceos- millions! All of this while so many WA citizens have been laid off or lost their jobs. Freezing service shutoffs is not enough. The irony of utilities is that wealthy people can invest in technology that lowers their bills, while poorer and elderly people do not! The UTC can reregulate these profit-driven corporations to serve the state, not their shareholders!

Regards,

Nodie sullivan
