#### 5.4.4 MARKET EXPANSION LINE SERVICE

##### A. Description

*MARKET EXPANSION LINE* (MEL) is furnished in central offices where facilities and operating conditions permit. It is an arrangement to automatically forward all incoming calls placed to the remote call forwarding number, to another telephone number.

##### B. Terms and Conditions

1. Rates for the MEL feature are in addition to applicable rates and charges for the service and equipment used.
2. MEL is not offered where the terminating station is a pay telephone.
3. The Company will not provide identification of the originating telephone number to the MEL customer.
4. Transmission characteristics may vary depending on the distance and routing necessary to complete the remotely forwarded call. Therefore, MEL is not guaranteed for satisfactory transmission of data.
5. A condition of providing MEL Service is that the customer orders sufficient MEL features and facilities to adequately handle calls to the MEL customer without interfering with or impairing any services offered by the Company. If, in the Company's opinion, additional MEL are required at the call forwarding location or if facilities are needed at the terminating station, the customer will be required to subscribe to additional MEL features and facilities. Should the customer refuse to subscribe to additional MEL features and/or facilities, the customer's MEL service will be subject to termination.
