Description	<p>Dear WUTC,</p> <p>I am writing to request that you deny the 62% average rate increase has been requested by the Rosario Utilities, L.L.C. I am a property owner in the Rosario area. The proposed percentage increase for households that use 1 – 3000 gallons is 136%! This and the other proposed percentage increases for different gallon consumptions are outrageous.</p> <p>Rosario Utilities is the ONLY provider of water in the Rosario area which means it has a stranglehold on all of us who own private property and live or vacation in the area. As you establish a fair rate, please consider that Rosario is for sale with a Master Plan for major development of the area. This proposed revenue increase will certainly make the resort sell more easily but it will be on the financial backs of current homeowners in the area.</p> <p>We property owners request that you consider and set what is a fair rate for us as well as for Rosario, which has a monopoly on the water delivery system in the area and can set whatever it wants.</p> <p>Thank you. Andrew Green [REDACTED] [REDACTED]</p>
