STIPULATION AND PARTIAL SETTLEMENT AGREEMENT - 1

SUMMIT LAW GROUP PLLC

315 FIFTH AVENUE SOCTH, SUITE 1000 SEATTLE, WASHINGTON 98104-2682 Telephone: (206) 676-7000 Fax: (206) 676-7001

SUMMARY

- 1. The parties to this proceeding hereby enter into this Stipulation and Partial Settlement Agreement, pursuant to WAC 480-07-740. The Stipulation and Partial Settlement Agreement sets forth the terms of the proposed resolution of one of the issues presented in the above-referenced docket matters, and reflects an agreement of all parties on some issues as governed by WAC 480-07-730(2), in that it is intended to obtain the Commission's approval to establish the recycling commodity credit for single-family and multi-family recycling customers served by Waste Management of Washington, Inc. ("Waste Management") in King County and Snohomish County on a permanent basis through the remainder of the current period, with an expiration date of August 31, 2011.
- The Stipulation and Partial Settlement Agreement preserves for further litigation other remaining matters, in accordance with WAC 480-07-730(2). Implicated is RCW 81.77.185, which allows regulated solid waste collection companies collecting recyclable materials to retain up to fifty percent of the revenue paid for recyclable materials if the companies submit a revenue sharing plan to the Commission that is certified by the appropriate Counties as being consistent with the local government solid waste plan and that demonstrates how the revenues will be used to increase recycling. In this proceeding, the issue of whether the statute allows Waste Management to retain any unspent revenue under future revenue sharing plans is preserved for litigation, and is not resolved in this Stipulation and Partial Settlement Agreement.¹
- 3. This Stipulation and Partial Settlement Agreement is also intended as supporting documentation necessary to demonstrate to the Commission that the settlement proposal is

¹ A different proceeding that presents related issues regarding the interpretation of RCW 81.77.185 is also pending before the Commission. See In re Mason County Garbage Co., Inc. d/b/a/ Mason County Garbage, G-88, Docket TG-101542; In re Murrey's Disposal Co., Inc., G-9, Docket TG-101545; In re American Disposal Co., Inc., G-87, Docket TG-101548 (consolidated) (the "American Disposal Docket").

consistent with law and the public interest, and is appropriate for adoption, as required under WAC 480-07-740(2). It is accompanied by a Joint Narrative Supporting Partial Settlement Agreement, which outlines the scope of the underlying dispute, the scope of the settlement and its principal aspects; the parties' views about why the proposal satisfies both their interests and the public interest; and a summary of legal points that bear on the proposed settlement.

Because the matter being settled is of lesser comparable complexity than a general rate proceeding, it has been presented twenty-one days prior to the requested effective date of March 1, 2011. Should the Commission desire testimony from witnesses or oral argument from counsel in accordance with WAC 480-07-740(2)(b), the parties will be prepared to provide it.

PROCEDURAL HISTORY

- On July 16, 2010, Waste Management of Washington, Inc. ("Waste Management") filed with the Washington Utilities and Transportation Commission ("Commission") revisions to three of the company's then-effective tariffs, requesting approval to adjust its recycling commodity credits and implement a request to retain fifty percent of the revenue it estimated it would receive from the sale of recyclable materials collected under its regulated recycling services by three of the company's operating divisions in King County and Snohomish County, with an effective date of September 1, 2010.
- Specifically, the three following filings were submitted for three different Waste Management operating divisions in the two Counties:
 - In Docket TG-101220, Waste Management of Washington, Inc., d/b/a Waste Management – Northwest ("WM – Northwest") filed revisions to its currently effective Tariff No. 17 for operations in Snohomish County.

20

21

22

23

24

Fax: (206) 676-7001

- In Docket TG-101221, Waste Management of Washington, Inc., d/b/a Waste

 Management Sno-King ("WM Sno-King") filed with the Commission revisions to

 its currently effective Tariff No. 15 for operations in King County.
- In Docket TG-101222, Waste Management of Washington, Inc., d/b/a Waste
 Management South Sound, Waste Management of Seattle ("WM South
 Sound/Seattle") filed with the Commission revisions to its currently effective Tariff
 No. 22 for operations in King County.
- All of the filings in the above-referenced dockets proposed to increase the recycling commodity credits Waste Management pays to single family and multi-family customers for the value of the recyclable materials that Waste Management collects in its residential recycling collection service, using a deferred accounting methodology to determine the amount of the credits. See WAC 480-70-351.
- 8. In the same dockets, Waste Management contemporaneously filed a Revenue Sharing Agreement ("RSA"), with both Snohomish County (for WM Northwest) and with King County (for WM Sno-King and for WM South Sound/Seattle) for the period of September 1, 2010, to August 31, 2011 (the "2010-2011 RSAs"), intended as implementation of RCW 81.77.185. The Counties each submitted letters certifying the 2010-2011 RSAs as consistent with the respective Comprehensive Solid Waste Management Plans, and recommended that Waste Management be allowed to retain fifty percent of the actual value of recyclable commodity revenues received during the period of September 1, 2010, through August 31, 2011. Waste Management also included with its filing a report of how the revenues from the sale of recyclable commodities were spent during the immediately-preceding plan period of July 1, 2009, to June 30, 2010 under the previously-effective RSAs with the two Counties (the "2009-2010 RSAs").
- 9. The matters came before the Commission at its Open Meeting on August 26, 2010. The Commission inquired about the manner in which the revenue from sales of recyclable

16

17 18

19 20

22

21

23 24

25 26 materials had been budgeted and spent. The Commission issued Order 01 in Dockets TG-101220, TG-101221, and TG-101222 on August 31, 2010. The Commission authorized retention of fifty percent of the revenues derived from recyclable materials collected in Waste Management's three single-family and multi-family residential recycling programs on an interim basis, from September 1, 2010, through December 1, 2010, subject to refund.

- 10. The Commission directed Waste Management to work with King and Snohomish Counties to develop a detailed budget showing the amount of revenue the company estimated to generate from the sale of recyclable commodities, the amount of money it expected to retain, the amount of money it planned to spend under the proposed 2010-2011 RSAs. The Commission ordered Waste Management to file these materials in a petition by November 1, 2010. The Commission stated its intent to either lift the interim status of the revenue sharing by December 1, 2010 or set some other percentage for revenue sharing as a condition of allowing the proposed revenue sharing to be effective for the remainder of the period through August 31, 2011.
- 11. Order 01 also stated that revenues retained by Waste Management and not spent during the previous plan period under the 2009-2010 RSAs were to be carried over into the next plan period; and revenues not spent during the next plan period authorized by the 2010-2011 RSAs were to be carried over to the following year, "unless some other treatment as may be ordered by the Commission."
- 12. The Commission took no action on the three revised commodity credits, thereby allowing them to go into effect September 1, 2010, by operation of law. Order 01, however, reserved the Commission's intent to revisit the commodity credit amounts that were allowed to go into effect by operation of law in these dockets.
- 13. On November 1, 2010, as required by Order 01, Waste Management filed a Petition to Allow Revenue Sharing, Lift Interim Status and Approve Revised Commodity Credits, for an effective date of December 1, 2010. With agreement and support from both King and

Snohomish Counties, Waste Management's *Petition* requested that the company be allowed to keep eight percent of retained revenues as earnings by excluding that amount from the calculation of the recycling commodity credit based on revenues derived during the 2009-2010 RSA plan period, and by including a line-item for that amount in the budget for expenditures during the 2010-2011 RSA plan period.

- 14. The recycling commodity credit requests filed in July had been calculated using the accepted deferred accounting methodology, but assumed that all of the commodity revenue retained but unspent during the 2009-2010 RSA plan period (\$212,168) was to be kept by Waste Management. With the *Petition* filed on November 1, Waste Management submitted revised tariff pages recalculating the recycling commodity credit based on keeping only eight percent of actual retained revenue generated during the plan period of the 2009-2010 RSAs (\$88,162), and incorporating the remaining unspent revenue (\$124,006) into the carry-over true-up for the revised commodity credits presented.
- 15. The November Petition also included a proposed budget for the 2010-2011 RSA plan period that included a line item allocating an eight-percent profit to Waste Management from the projected fifty-percent to be retained out of the estimated revenue from recyclable commodities.
- 16. Asking the Commission to act on its statement requiring carry-over of all unspent revenues "unless some other treatment as may be ordered by the Commission," Waste Management's Petition presented a request to the Commission to order an alternative treatment. The relief request by the Petition was for: (1) lifting the interim status of the revenue sharing thereby allowing the Company to retain fifty-percent of the revenue projected in and expended according to the budgets presented in the King and Snohomish County 2010-2011 RSAs, which included the eight-percent line-item for the company's profits; and (2) approving the revised recycling commodity credits as recalculated to include unspent revenues from 2009-2010 RSA plan periods except eight percent profit to the company.

I'ax: (206) 676-7001

2010. Staff's Memorandum stated a concern that the proposed eight percent profit factor would affect "the percent of revenue that the commission may allow the company to retain for the 2010 - 2011 plan period, as well as what the commission may determine should happen with the unspent 2009 - 2010 retained revenue." The Staff Memorandum concludes, "A decision in these dockets regarding company profits would affect all other companies participating in revenue sharing plans." Staff recommended that the Commission: (1) set the company's Petition for hearing, (2) extend the authorization for Waste Management to retain fifty percent of the revenue received under the 2010-2011 RSA programs on an interim basis, subject to refund, and (3) issue a complaint and order suspending the tariff revisions filed on November 1, 2010.

17. Waste Management's Petition was on the agenda for the Open Meeting on November 24,

- 18. At the Open Meeting, Waste Management articulated an alternative request for relief. The company suggested that the Commission separate its actions regarding the recycling commodity credit based on revenues generated during the 2009-2010 RSA plan periods, from actions regarding the revenue sharing requests and budgets submitted under the 2010-2011 RSAs. Waste Management orally offered to submit revised tariff pages for its three divisions, this time calculated to utilize all of the unspent revenues from the 2009-2010 RSA plan periods.
- 19. The company did not offer to revise the revenue projections or expense estimates for the 2010-2011 RSA budget. Legal questions of how to interpret and apply RCW 81.77.185 were expressly the focus of the American Disposal Docket, and therefore Waste Management wished to defer a decision on its proposal to budget for keeping eight-percent of the retained revenues in the future 2010-2011 RSA plan period until after a decision in the American Disposal Docket proceeding, which would provide guidance on the threshold question of whether or not company participants could keep any of the retained revenue. Depending on

l'ax: (206) 676-7001

.

the outcome in the American Disposal Dockets, the question of whether Waste

Management's proposal to retain eight percent was reasonable or not was not yet ripe.

- 20. Waste Management's Petition and the company's alternative request for relief were discussed at the November 24 Open Meeting. Staff indicated support for the company's proposal to refund all unspent revenue from the 2009-2010 RSA plan period by including it in the recycling commodity credit true-up. The treatment of the 2010-2011 RSA budget and plan, however, were not susceptible to resolution at the Open Meeting forum. Chairman Goltz expressed an understanding that the company and Staff could "come up with a stipulation" that would resolve the "third element" of the filing that was directly focused on the company's proposal to set the recycling commodity credit so that all of the unspent money from 2009-2010 was refunded to the ratepayers. Thus, the Commission issued Order 02, and thereby suspended the operation of the tariff revisions in Dockets TG-101220, TG-101221, and TG-101222, pending hearing or hearings concerning all proposed changes, and sent the matter to the Administrative Law Division of the Commission.
- 21. On December 1, 2010, the Commission issued Order 03, consolidating the three Waste Management dockets and setting them for prehearing conference on December 20, 2010.
- 22. Also on December 1, 2010, the Commission issued Order 02 in the American Disposal Dockets, consolidating those matters and setting them for prehearing conference on the same date as the Waste Management dockets.
- 23. The parties to this Waste Management proceeding and the parties in the American Disposal Docket convened before Administrative Law Judge Kopta on December 20, 2010. At that time, Waste Management was granted intervenor status in the American Disposal Docket. Dockets TG-101542/101545/101548 Order 03 ¶ 4 (granting intervention status to Waste Management in the American Disposal Docket). Because the statutory issues presented in this Waste Management docket may depend on the outcome of the American Disposal Docket, the procedural schedule in this case is "on hold" pending entry of an initial order in

Fax: (206) 676-7001

1	that matter. Order 04 ¶ 8 (deferring further administrative action on the Waste Management
2	dockets).
3	24. However, in accordance with the discussions at the November 24 Open Meeting, Waste
4	Management and Staff have worked together to negotiate resolution of some or all of the
5	issues. This Stipulation and Partial Settlement Agreement is the result of those negotiations.

PARTIAL SETTLEMENT AGREEMENT

- 29. In essence, Dockets TG-101220, TG-101221, and TG-101222 involve two components: (1) recycling commodity credits; and (2) Revenue Sharing Agreements. Only the amount of the recycling commodity credit for the remainder of the 2010-2011 RSA plan period is the subject of this *Partial Settlement Agreement*.
- 30. The parties agree to request that the Commission lift suspension ordered by the Commission on November 24, 2010 in each of these consolidated dockets; and approve on a permanent basis an adjustment to Waste Management's 2010-2011 recycling commodity credit that has been calculated to include the full amount of unexpended revenue (\$212,168) from the 2009-2010 RSA period, calculated for ratepayer credits over the remaining six-months of the 2010-2011 RSA plan period, from March 1, 2011 to August 31, 2011. Attached hereto and incorporated herein are the following revised substitute tariff page and 2009-2010 Revenue Report intended to implement this *Partial Settlement Agreement*:
 - Docket TG-101220, Waste Management of Washington, Inc., d/b/a Waste
 Management Northwest ("WM Northwest"): revisions to Tariff No. 17 for operations in Snohomish County (Attachment A).
 - Docket TG-101221, Waste Management of Washington, Inc., d/b/a Waste
 Management Sno-King ("WM Sno-King"): revisions to Tariff No. 15 for operations in King County (Attachment B).
 - Docket TG-101222, Waste Management of Washington, Inc., d/b/a Waste Management South Sound, Waste Management of Seattle ("WM South Sound/Seattle"): revisions to Tariff No. 22 (Attachment C).
 - Dockets TG-101220, TG-101221 and TG-101222, Waste Management Revenue
 Sharing Report 2009-2010 (revised 02/02/2011) (Attachment D).
- 31. The parties agree and stipulate that Commission approval of this *Partial Settlement*Agreement is intended to fully resolve the manner in which the unexpended revenue

(\$212,168) from the 2009-2010 RSA plan period is to be treated under RCW 81.77.185. The parties acknowledge that legal issues related to interpretation of RCW 81.77.185 are the subject of litigation in the American Disposal Docket and, possibly, further litigation in this Waste Management docket. The parties agree that the outcome of those adjudicative proceedings and any judicial review thereof shall not be a basis for seeking modification to the terms of this settlement or for revising the treatment of the unexpended revenue (\$212,168) from the 2009-2010 RSA plan period or for recalculating the recycling commodity credits that are presented in the attached substitute tariff pages.

- Management to retain fifty percent of the revenue received under the 2010-2011 RSA programs on an interim basis, subject to refund. The budget prepared by Waste Management for the King and Snohomish County 2010-2011 RSA plan periods will retain a line item for "Revenue retained by Company" in an amount of eight percent of the projected revenue. The parties acknowledge that a Commission decision approving that budget and the 2010-2011 RSAs has not been made. The 2010-2011 RSAs are not subject to this *Stipulation and Partial Settlement Agreement*. In accordance with Order 04, the Commission will establish a procedural schedule for addressing the 2010-2011 RSAs and budget following entry of the initial order in the American Disposal Docket.
- 33. This Stipulation and Partial Settlement Agreement represents a compromise of the parties' positions. The parties agree and stipulate to this Stipulation and Partial Settlement Agreement to avoid further expense, inconvenience, uncertainty, and delay. Neither Commission Staff nor Waste Management intend the resolution of the recycling commodity credit for the 2009-2010 RSA plan period to preclude either party from making arguments about the interpretation or implementation of RCW 81.77.185. The parties do not intend the Stipulation and Partial Settlement Agreement to be interpreted as a statement of their positions or to be construed as a waiver of any legal positions that might be taken in the

Fax: (206) 676-7001

American Disposal Docket, in this	Waste Management	litigation,	or in any	future
proceedings whatsoever.				

- 34. The parties agree that conduct, statements, and documents disclosed during negotiations of the settlement presented in this Stipulation and Partial Settlement Agreement shall not be admissible as evidence in this or any other proceeding, except in any proceeding to enforce the terms of the settlement contained in this Stipulation and Partial Settlement Agreement, or any other order of the Commission adopting the terms herein. The terms of this Stipulation and Partial Settlement Agreement shall not be construed against either party because it was the drafter.
- 35. The parties agree that this Stipulation and Partial Settlement Agreement is not binding unless and until entered by the Commission. If the Commission does not accept this Stipulation and Partial Settlement Agreement, the parties agree that neither this Stipulation and Partial Settlement Agreement nor any statement or admissions contained herein will be admissible or used for any purpose in this docket or in any other proceeding for any purpose, including but not limited to the American Disposal Docket.
- 36. The parties agree to support adoption of this Stipulation and Partial Settlement Agreement in proceedings before the Commission. Neither Staff nor Waste Management, nor either of its legal counsel, will engage in advocacy contrary to the Commission's adoption of this Stipulation and Partial Settlement Agreement.
- 37. This Stipulation and Partial Settlement Agreement supersedes all prior written and oral agreements on issues addressed herein. The parties agree to take all actions necessary as appropriate to carry out this Stipulation and Partial Settlement Agreement.
