**Docket UE-210795
Puget Sound Energy
PSE 2021 Clean Energy Implementation Plan**

FRONT AND CENTERED AND NW ENERGY COALITION DATA REQUEST NO. 182:

Topic: Archuleta Testimony (Geo-Targeting, LIW, Co-Deployment, Demand Response, Workforce Development, CBIs and Metrics)

After describing aspects of PSE’s demand response programs, Witness Archuleta testifies that “[t]hese plans deliver the changed called for by NWECC and Front and Centered in the response testimony [of] Mr. Reeves, Exh. SR-1T.” GA-1T at 23:7–23:9.

- a. Please identify which pages in the CEIP include the elements of PSE’s demand response “plans” discussed at GA-1T at 22:8–23:9.

Response:

- a. The plans referenced in Front and Centered and NW Energy Coalition Data Request No. 182(a) were not included in Puget Sound Energy’s (“PSE”) 2021 Clean Energy Implementation Plan (“CEIP”). When the 2021 CEIP was filed, PSE had not yet issued its targeted distributed energy resource (“DER”)/demand response (“DR”) request for proposal (“RFP”) to solicit bids in support of the CEIP targets. In 2022, PSE issued a DER/DR RFP, received several DR proposals and began contract negotiations with potential vendors. The current schedule has initial DR program offerings forecasted to be offered in Q3 2023.
