Description of Adjustment

On April 27, 2005, the Commission granted a request by the Company for an accounting order relating to the treatment of environmental remediation costs in Docket UE-031658. The Commission authorized the Company to record and defer costs prudently incurred in connection with its environmental remediation program. Costs of projects in excess of \$3 million system-wide, incurred from October 2003 through March 2005, are to be deferred and amortized over a ten-year period. Only one project, the Third West Substation Cleanup, qualifies for this treatment. This restating adjustment removes the balance and amortization from FERC accounts 182.391 and 925, except for the Third West Substation Cleanup, and adds the cost for small remediation projects that cannot be deferred, per the Commission's 2005 order.
