Dear Sir:

I cant understand why Waste Conn  
has to ask for increase in rates.  
Nobody wants to keep the cost down  
as long as they have an open  
check book why not shoot the works  
All bureaucrats keep spending as long  
as they can. All they do is load  
road side garbage for our tourists.  
Oil is coming down & so is costs.  
There is no competition & thats the  
problem.  
Inflation is down so why  
increase?
