Our customer service representatives are knowledgeable and polite. They understand the frustration and confusion that can arise during a move, and are ready to help you with any questions or concerns you may have.

Competitive rates

Don't pay more than you have to. TSI gets you one low rate. Your move is priced based on the amount of space your goods take up in the truck. As long as your weight and dimension estimates are correct, the quote you get is the price you pay.

Our customers often see significantly lower prices than if they go directly to independent moving and shipping companies. Why go anywhere else?

Your service was excellent from start to finish, I wasn't there for the pickup but my Aunt said you did a great job. Your delivery men were very courteous and helpful, they even put padding up in the elevator, which was supposed to have been done by the manager of our building. Thanks for everything, I would use your company again in a heartbeat.

Excellent From Start to Finish

Carol was fantastic with customer service. I was worried about using a service like this, as you can read crazy things on the internet, but she told me she had been with the company 20+ years, and any question I asked her she was very educated and explained things clearly to me. Thank you Carol for making a stressful time in our lives less stressful!

Knowledgeable Staff!

Excellent customer service. Talked to the same person each time I called and was given updates regularly. They suggested methods of packaging which reduced costs on my end. Pick up was not troublesome at all. The driver was very friendly and explained how shipping was carried out. I would/will use TSI again.
