Subject: Protect Our Climate Future (Docket #200304 and #200305)
Date: Monday, February 22, 2021 9:50:22 AM

External Email

Dear Washington UTC,

I have written detailed letters to PSE for several years now but have yet to get reply. Please cancel all your plans for gas power in the future, and also plan for conversion of the plants you already have to clean energy! As a retired fish and wildlife biologist I have come to see climate protection to be the most important issue facing us. Please don't let us all down! Start the conversion today and finish it within 5 yrs! I am a captive customer now and wish I had another choice!

I am writing to ask the Utilities and Transportation Commission to not allow Puget Sound Energy (PSE) to build new gas power plants for their long-range electricity plan and to reduce their use of gas for the long-range gas plan.

According to the International Panel on Climate Change (IPCC), natural gas is far more damaging to the climate than previously thought. Gas may be as bad as coal for the climate. And natural gas certainly is not "natural" when the impacts of hydraulic fracturing or "fracking" to extract gas is poisoning groundwater in communities across the country.

Our new 100% clean electricity law -- the Clean Energy Transformation Act (CETA) -- requires all utilities to be 80% fossil fuel free by 2030 and 100% by 2045. The last thing we need to do is build new gas power plants that would be around for decades. The intent of CETA is to wind down on gas power in our electricity, not ramp it up.

Our new state law that establishes science-based fossil fuel reductions that come from the IPCC, call for 95% reductions by 2050 and 70% reductions by 2040. Yet PSE's long-range plan for its gas utility shows virtually no reductions for the next 20 years. PSE fails to follow recommendations in Washington's new State Energy Strategy that identifies moving buildings from gas to electricity as a key strategy for climate protection.

Enough is enough. PSE must take climate change seriously before it is too late. Please reject PSE's electricity and gas plans.

Sincerely,

Bourtai Hargrove
