DATA REQUEST NO. 521:

For each line count shown in the table above, please indicate the number of lines billed as interstate and the number of lines billed as intrastate, and provide separately the dollar amount of revenue associated with the interstate and intrastate lines in each table category.

RESPONSE:

The revenue in the table below is the revenue associated with the ARMIS line count as stated in the request above. Line counts are measured at a point in time, in this request it's December 2002 and 2003. To match revenue to these lines, they too must be for a point in time. Therefore, the access lines and the associated revenues with these lines are as of December 2002 and 2003.
