VIA HAND DELIVERY

Mr. David Danner, Executive Director and Secretary
Washington Utilities and Transportation Commission
1300 South Evergreen Park Drive SW
Olympia, WA 98504-7250

Re: Burton Water Company - Docket No. UW-091051 - Compliance
Filing

Dear Mr. Danner:

Enclosed you will find the original and three copies of tariff Sheets 26, 27 and 28. These Sheets replace the corresponding sheets filed on January 12, 2010 which inadvertently referenced WN U-1 rather than WN U-2.

I apologize for any inconvenience. The undersigned has authority to file tariff sheets on behalf of the Company.

Sincerely,

RICHARD A. FINNIGAN

SCHEDULE NO. 6
CROSS CONNECTION CONTROL

A. Applicable:

To all customers served by the utility for purposes of assessing the presence of cross connections and additional requirements apply to those customers that have cross connections.

B. Rate:

Site Visit Charge	- \$50.00
Premises Inspection Charge	- \$35.00 per hour prorated for time spent
Installation of Approved Backflow	
Prevention Assembly	- Time and materials

C. Conditions:

1. This schedule is established pursuant to the requirements adopted by the Washington State Department of Health in WAC 246-290-490, as it now exists or is hereafter amended or replaced. Copies of this regulation are available from the Washington State Department of Health or from the utility.

2. All customers shall be surveyed as to the existence of cross connections pursuant to the definition of cross connections established by the Washington State Department of Health. A second survey shall be sent to those customers who fail to respond to the initial survey. If the customer fails to respond to the second survey, then the following non-response options may be necessary and the customer will be charged pursuant to the rate or rates, as applicable, set forth in section B, above. For new customers, a survey will be required as part of the application prior to accepting the applicant as a customer.

Per Order 03 in Docket No. UW-091050

WN U-2

ORIGINAL SHEET NO. 27

BURTON WATER COMPANY, INC.

(N)

SCHEDULE NO. 6 (Continued)
CROSS CONNECTION CONTROL (Continued)

Non-Response Options

- a. Site Visit letter/appointment for on-site review of cross connection potential, followed by a Site Visit and Premise Inspection for determination of cross connection potential as defined in WAC 246-290-490. The customer will be assessed the charges set forth in section B, above.
 - b. Installation of Approved Backflow Prevention Assembly at customer's expense or as set forth in section B, above.
 - c. Notice of disconnection of service per WAC 480-110-355.
3. An on-site inspection is required for every customer meeting any criteria of WAC 246-290-490-4(b) Table 9. The customer will be assessed the appropriate charges set forth in section B, above.
4. If a cross connection is detected or is reported by the customer, then the utility will determine the appropriate remedy and notify the customer of the remedy, options, and dates for compliance. If an Approved Backflow Prevention Assembly is required, the utility will determine the type of Approved Backflow Prevention Assembly that must be installed, and must provide the customer with a date by which the device must be installed. Installation will be the customer's responsibility and sole expense. The customer may choose to have the Approved Backflow Prevention Assembly installed through any contractor acceptable to the utility. If the customer does not install the appropriate Approved Backflow Prevention Assembly within thirty days of notification, the utility may take appropriate action to correct. This may include the utility installing an Approved Backflow Prevention Assembly at customer's expense if tariffed or may result in the utility providing a notice of disconnection of service by the date specified in the notice. The Approved Backflow Prevention Assembly will be installed on a customer's side of the service connection.

SCHEDULE NO. 6 (Continued)

CROSS CONNECTION CONTROL (Continued)

5. If the customer has an Approved Backflow Prevention Assembly installed the assembly must be tested annually by a certified Backflow Assembly Tester (BAT) specialist. The utility will maintain a list of certified BAT specialists that are acceptable to the utility and the customer may choose from any such BAT specialist on the utility's list. The customer will provide a copy of the acceptable annual report from the BAT specialist. If the annual report is not provided within thirty days of the anniversary date of the installation of the Approved Backflow Prevention Assembly, then the utility will provide a notice of disconnection pursuant to WAC 480-110-355. If a copy of the annual report is not received by the date for disconnection as specified in the notice, the utility will disconnect customer's service.

6. No less often than every three years, the utility shall re-survey its customers concerning the existence of cross connections. If the customer does not respond to the initial survey, a second survey will be sent. If the customer does not respond to the second survey, then non-response options listed in paragraph 2 will apply.

7. For each customer meeting any criteria of WAC 246-290-490-4(b) Table 9, no less than every three years, the utility shall conduct a site visit, premises inspection and shall assess the customer the charges set forth in section B, above.

8. When necessary, the utility will provide notices of disconnection as required in WAC 480-110-335.
