provide services or hold itself out as available to provide services was due to market conditions beyond its control. Where competition was possible, but a certificate holder chose for other reasons not to pursue opportunities in that market, the Governor's concern does not apply. This is the case here, where Waste Management has not contended that there were no customers that would use its biomedical waste services had they been offered. It is also not contested that, as WRRRA points out, biomedical waste was and remains a competitive sector, with local carriers actively in competition with Stericycle.⁶ WRRRA Response, p.7.⁷ This active competition further demonstrates why the Governor's stated concern does not apply to the issue of abandonment presented here.

C. The Undisputed Facts Demonstrate that Waste Management Was Unable and Unwilling to Provide Biomedical Waste Services in the Test Year.

19. Leaving aside the Commission's evidentiary presumption, and the opposing parties' arguments that apply only to that issue, the undisputed facts *directly* demonstrate that Waste Management was both unable and unwilling to provide biomedical waste services in the test year ending February 10, 2011.

20. The Commission Staff misconstrues this standard and asserts instead that Stericycle must demonstrate Waste Management's subjective "intent" to abandon its

⁶ For this reason it is not true that Stericycle has "cornered" the biomedical waste market and is attempting to stifle competition by advocating that Waste Management be required to apply for authority before initiating a new biomedical waste collection service after abandoning such services for almost 15 years. *See* Commission Staff Response, p. 3, ¶5.

⁷ WRRRA's concern that small operators in territories without a "broad enough customer base" to support their participation in biomedical waste will be found to have abandoned that authority is not applicable here. *See* WRRRA Response, p.7. Where that situation can be demonstrated, then the failure to participate may be shown to be due to market conditions beyond the operator's control. With respect to Waste Management, however, there is no dispute that its territory encompass 80% of the State's generated biomedical waste, more than enough to establish a viable market.

and is only now soliciting Washington generators for the program.¹⁴ The fact that other “Waste Management” subsidiaries in other states have offered a sharps recycling program has no bearing on Waste Management’s ability or willingness to provide biomedical waste collection services to Washington generators under G-237 in the test year.

D. Public Policy Requires Amendment of G-237.

36. The final issue before the Commission is the exercise of its discretion to amend G-237 to delete the abandoned biomedical waste authority. No opposing party contests that the Commission employs a strong presumption in favor of amendment, when abandonment has been found, to be rebutted only by compelling policy considerations. Motion for Summary Determination, pp.37-38, ¶¶58-59. No opposing party contests that the dangers to public health and safety inherent in biomedical waste collection services provide a strong public policy justification in favor of deleting abandoned authority and, thus, requiring an application for authority in which the proposed new service and its consistency with the public interest can be properly evaluated by the Commission.

37. The Commission Staff and WRRRA’s principal argument is simply that public policy favors competition and allowing abandoned authority to remain in a G-certificate would promote competition. *See* Commission Staff Response, p.9, ¶19; WRRRA Response, p.7. But the Commission has not recognized competition as a paramount public policy in the context of solid waste regulation, much less in the context of biomedical waste collection. To the extent the Commission has recognized the value of competition in

¹⁴ The entity at issue here is Waste Management of Washington, Inc., the holder of G-237. What other “Waste Management” entities have done in other jurisdictions is irrelevant here.

(3) That because Waste Management has abandoned its biomedical waste collection authority, G-237 should be amended to delete biomedical waste collection authority.

Dated this 1st day of June, 2011.
