**RE: Docket Number – UT-061625 *In the Matter of Qwest's Petition for Approval of an Alternative Form of Regulation in Accordance with RCW 80.36.135*
Qwest's revised Supplemental Response to Bench Request No. 3**

Dear Ms. Washburn:

Enclosed are an original and fifteen copies of Qwest's revised Supplemental Response to Commission Bench Request No. 3 in the above-referenced docket.

Yesterday, Qwest sent you Attachments H and I in its response to the data requested in the 2nd column of the Commission form regarding *Qwest Retail Access Lines with DSL Capability*. Qwest has since become aware that the data had several transposition errors in it and did not represent its retail access lines with DSL capability. Qwest does not track its DSL capability based on access lines, but rather on living units with working telephone numbers. The attached files provide 2005 and 2006 data on the basis of living units with working telephone numbers. Qwest does not have data on this basis prior to 2005. Qwest believes that the other exhibits that it provided in response to this data request provide true and accurate information.

If you have any questions regarding this serving, I can be reached at (303) 383-6679.

Sincerely,

Kathy Rowley
Lead Paralegal/Interrogatory Manager
