TR-040302 File

From: Ahmer Nizam, Regulatory Analyst

Subject: **Completion of Work Funded by GCPF Grant**

On March 24, 2004, the Commission awarded a \$6,700 GCPF grant to the Northwest Railway Museum (NWRM) in Docket TR-040302. Use of the grant was limited to upgrading train detection circuitry at the Meadowbrook Way grade crossing in King County, Washington.

On May 26, 2005, NWRM submitted a reimbursement request for the work totaling \$6,069.53. Commission Staff have verified that all work at the crossing is consistent with the Order in TR-040302. Accordingly, NWRM should be reimbursed the requested amount.
