

with these rules are hereby superseded unless the commission authorizes the deviation in writing.

Cases of erroneous or doubtful interpretation of these rules by a utility or subscriber are subject to appeal to the commission by any interested and proper party affected.

Upon proper showing of any utility, the commission may waive or modify, as to that utility, the provisions of any rules herein, except when such provisions are fixed by statute.

No deviation of these rules will be permitted without written authorization by the commission. Violations will be subject to the penalty provisions of chapter 80.04 RCW.

[Statutory Authority: RCW 80.01.040 and 1985 c 450, 85-23-001 (Order R-242, Cause No. U-85-36), § 480-120-011, filed 11/7/85; Order R-25, § 480-120-011, filed 5/5/71. Formerly WAC 480-120-010.]

WAC 480-120-016 Saving clause. The adoption of these rules shall in no way preclude the commission from altering or amending the same, in whole or in part, or from requiring any other or additional service, equipment, facility or standards, not otherwise herein provided for, either upon complaint or upon its own motion, or upon the application of any party, and further, these rules shall in no way relieve any utility from any of its duties under the laws of the state of Washington.

[Order R-25, § 480-120-016, filed 5/5/71. Formerly WAC 480-120-020.]

WAC 480-120-021 Glossary. Access line - a circuit between a subscriber's point of demarcation and a serving switching center. Access code - sequence of numbers that, when dialed, connect the caller to the provider of operator telecommunication services associated with that sequence.

Aggregator - is referenced in these rules as a call aggregator, defined below:

Alternate operator services company - is referenced in these rules as an operator service provider (OSP), defined below.

Applicant - any person, firm, partnership, corporation, municipality, cooperative organization, governmental agency, etc., applying to the utility for new service or reconnection of discontinued service.

Automatic dialing-announcing device - any automatic terminal equipment which incorporates the following features:

- (1)(a) Storage capability of numbers to be called; or
- (b) A random or sequential number generator that produces numbers to be called; and
- (c) An ability to dial a call, and
- (2) Has the capability, working alone or in conjunction with other equipment, of disseminating a prerecorded message to the number called.

Automatic location identification/data management system (ALI/DMS) - ALI/DMS is a feature that forwards to the public safety answering point (PSAP) a caller's telephone number, the name and service address associated with the telephone number, and supplementary information as defined in the DMS for automatic display at the PSAP. The DMS is a combination of manual procedures and computer programs used to create, store, manipulate, and update data required to provide selective routing, ALI, emergency service numbers,

(1999 Ed.)

and other information associated with the calling party's telephone number.

Billing agent - a person such as a clearing house which facilitates billing and collection between a carrier and an entity such as a local exchange company which presents the bill to and collects from the consumer.

Base rate area or primary rate area - the area or areas within an exchange area wherein mileage charges for primary exchange service do not apply.

Call aggregator - any corporation, company, partnership, or person, who, in the ordinary course of its operations, makes telephones available to the public or to users of its premises for telephone calls using a provider of operator services, including but not limited to hotels, motels, hospitals, campuses, and pay phones (see also pay phone service provider).

Centrex - a telecommunications service providing a subscriber with direct inward dialing to telephone extensions and direct outward dialing from them.

Central office - a switching unit in a telephone system having the necessary equipment and operating arrangements for terminating and interconnecting subscribers' lines, farmer lines, toll lines and interoffice trunks. (More than one central office may be located in the same building or in the same exchange.)

Commission (agency) - in a context meaning a state agency, the Washington utilities and transportation commission.

Commission (financial) - in a context referring to compensation for telecommunications services, a payment from an AOS company to an aggregator based on the dollar volume of business, usually expressed as a percentage of tariffed message toll charges.

Competitive telecommunications company - a telecommunications company which is classified as such by the commission pursuant to RCW 80.36.320.

Competitive telecommunications service - a service which is classified as such by the commission pursuant to RCW 80.36.330.

Consumer - user not classified as a subscriber.

Customer premises equipment (CPE) - telecommunications terminal equipment, including inside wire, located at a subscriber's premises on the subscriber's side of the standard network interface/point of demarcation (excluding pay telephones provided by the serving local exchange company).

Emergency calling - the ability to access emergency services by dialing 911, or dialing a local number to police and/or fire where 911 is not available, without the use of a coin or the entering of charge codes. Where enhanced 911 is operational, the address displayed to the public safety answering point (PSAP) shall be that of the phone instrument if different from the public access line demarcation point and the phone number must be that of the pay phone.

Exchange - a unit established by a telecommunications company for communication service in a specific geographic area, which unit usually embraces a city, town or community and its environs. It usually consists of one or more central offices together with the associated plant used in furnishing communication service to the general public within that area.

[Title 480 WAC—p. 227]

Exchange area - the specific area served by, or purported to be served by an exchange.

Farmer line - outside plant telephone facilities owned and maintained by a subscriber or group of subscribers, which line is connected with the facilities of a telecommunications company for switching service. (Connection is usually made at the base rate area boundary.)

Farmer station - a telephone instrument installed and in use on a farmer line.

Foreign exchange service - a communications exchange service that uses a private line to connect a subscriber's local central office with a distant central office in a community outside the subscriber's local calling area.

Interexchange telecommunications company - a telecommunications company, or division thereof, that does not provide basic local service.

Interoffice facilities - facilities connecting two or more telephone switching centers.

Local coin call - a connection from a pay phone within the local calling area of not less than fifteen minutes.

Location surcharge - a flat, per-call charge assessed by an operator service provider (OSP) on behalf of a call aggregator/pay phone service provider in addition to message toll charges, local call charges, and operator service charges. A location surcharge is remitted, in whole or in part, to the call aggregator/pay phone service provider.

Operator service charge - a charge, in addition to the message toll charge or local call charge, assessed for use of a calling card, a credit card, or for automated or live operator service in completing a call.

Operator service provider (OSP) - any corporation, company, partnership, or person providing a connection to intrastate or interstate long-distance or to local services from locations of call aggregators. The term "operator services" in this rule means any intrastate telecommunications service provided to a call aggregator location that includes as a component any automatic or live assistance to a consumer to arrange for billing or completion, or both, of an intrastate telephone call through a method other than: Automatic completion with billing to the telephone from which the call originated; or completion through an access code used by the consumer with billing to an account previously established by the consumer with the carrier.

Outside plant - the telephone equipment and facilities installed on, along, or under streets, alleys, highways, or on private rights-of-way between the central office and subscribers' locations or between central offices.

Pay phone or pay telephone - any telephone made available to the public on either a fee-per-call basis, independent of any other commercial transaction, for the purpose of making telephone calls, whether the telephone is coin-operated or is activated by calling collect or using a calling card.

Pay phone access line, public access line, pay telephone access line, pay station service, pay phone service (PAL) - is referenced in these rules as an access line, see above.

Pay phone services - provision of pay phone equipment to the public for placement of local exchange, interexchange, or operator service calls.

Pay phone service provider (PSP) - any corporation, company, partnership, or person who owns or operates and makes pay phones available to the public.

Presubscribed provider of operator services - the provider of operator services to which the consumer is connected when a call is placed without dialing an access code.

Person - unless the context indicates otherwise, any natural person or an entity such as a corporation, partnership, municipal corporation, agency, or association.

Private branch exchange (PBX) - customer premises equipment installed on the subscriber's premises that functions as a switch, permitting the subscriber to receive incoming calls, to dial any other telephone on the premises, to access a tie trunk leading to another PBX or to access an outside trunk to the public switched telephone network.

Private line - a dedicated, nonswitched telecommunications channel provided between two or more points.

Public safety answering point (PSAP) - an answering location for enhanced 911 (E-911) calls originating in a given area. PSAPs are designated as a primary or secondary. Primary PSAPs receive E-911 calls directly from the public; secondary PSAPs receive E-911 calls only on a transfer or relay basis from the primary PSAP. Secondary PSAPs generally serve as centralized answering locations for a particular type of emergency call.

Reverse search of ALI/DMS data base - a query of the automatic location identification (ALI/DMS) data base initiated at the public safety answering point (PSAP) to obtain electronically the ALI data associated with a known telephone number for purposes of handling an emergency call when the searched telephone line is not connected to the PSAP.

Special circuit - an access line specially conditioned to give it characteristics suitable for handling special or unique services.

Standard network interface (SNI) - the point of interconnection between telecommunications company communications facilities and terminal equipment, protective apparatus, or wiring at a subscriber's premises. The network interface or demarcation point is located on the subscriber's side of the telecommunications company's protector, or the equivalent thereof in cases where a protector is not employed.

Station - a telephone instrument installed for the use of a subscriber to provide toll and exchange service.

Subscriber - any person, firm, partnership, corporation, municipality, cooperative organization, governmental agency, etc., supplied with service by any utility.

Toll station - a telephone instrument connected for toll service only and to which message telephone toll rates apply for each call made therefrom.

Trunk - a single or multichannel telecommunications medium between two or more switching entities which may include a PBX.

Utility - any corporation, company, association, joint stock association, partnership, person, their lessees, trustees or receivers appointed by any court whatsoever, owning, controlling, operating or managing any telephone plant within the state of Washington for the purpose of furnishing telephone service to the public for hire and subject to the jurisdiction of the commission.
