Re: State Waiver

Dear Ms. Beaton:

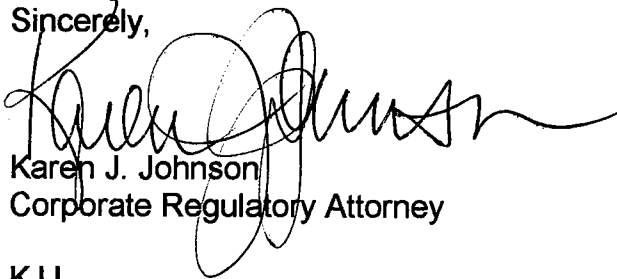

Integra Telecom of Washington, Inc. ("Integra") recently requested an additional 1000 block of number resources from Neustar's Pooling Administration System (PAS). On March 17, 2005, PAS denied our 425-408-6 block request out of the Bothell Rate Center. PAS found that our number utilization did not meet the FCC mandated months to exhaust utilization requirements. The Bothell rate center is at 6.7 months to exhaust.

We have a very large customer in Bothell, Northshore School District. Our customer needs an additional 3000 sequential DID's, starting with digit ranges of 13XX, 14XX, 16XX, 45XX, 46XX, 47XX, 50XX, 52XX, 53XX, 54XX, 55XX, 56XX or 75XX in order to expand their services. Because of their PBX configurations, Northshore School District is limited to the above sequence of numbers.

Our utilization of numbers in the Bothell rate center is at 52%, but Integra does not have blocks available that meet the leading digit requirements of Northshore School District. Northshore School District is a new customer and we would like to provide them with the service they desire. Therefore, we are requesting a waiver for another thousand block to satisfy our customer's need.

If you require any other information or have any further questions, please call me at 503-453-8119.

Sincerely,

Karen J. Johnson
