

**BEFORE THE WASHINGTON STATE  
UTILITIES AND TRANSPORTATION COMMISSION**

In the Matter of the Request of	)	DOCKET NO. UT-051415
	)	
QWEST CORPORATION,	)	ORDER NO. 01
	)	
For Assignment of Telephone	)	ORDER ASSIGNING
Number Resources	)	NUMBERING RESOURCES
.....	)	

**BACKGROUND**

1 Qwest Corporation, (Qwest or Company) requested on September 21, 2005, that the Commission overturn the numbering administrator's decision to withhold numbering resources and direct the Pooling Administrator to provide one number block of 1,000 numbers in the 509 area code, Pasco rate center. Qwest's inventory of telephone numbers for assignment in the Pasco rate center does not meet the special needs of a specific local government customer. The customer requires the numbers, specifically number code 542, and number block 5, to meet the need for 80 sequential numbers for a remote, rural site. Qwest submitted a request to the Pooling Administrator for additional numbering resources in the rate center, however, the request was denied as Qwest did not meet the utilization threshold. Qwest provided the Commission with the customer request and proof of utilization in the rate center.

**FINDINGS AND CONCLUSIONS**

2 (1) On December 28, 2001, the Federal Communications Commission (FCC) issued an order establishing a "safety valve" allowing carriers that do not meet the utilization threshold in a given rate center to obtain additional numbering resources apart from the general waiver process. (*In the Matter of Numbering Resource Optimization*, Third Report and Order and Second Order on Reconsideration, CC Docket 99-200, FCC No. 01-362, ¶¶ 57-66.) Specifically, the FCC granted to state commissions the authority to direct

the Pooling Administrator (Neustar) to release numbers to a carrier to satisfy a specific customer request that can not be met with the carrier's current inventory. (*Id.* ¶ 64).

- 3 (2) The Commission has jurisdiction over this matter pursuant to RCW 80.36.610, which gives the Commission authority to take actions necessary to implement the Federal Telecommunications Act of 1996.
- 4 (3) Normally, additional numbering resources are granted only when existing resources are forecasted to exhaust within six months. [47 CFR 52.15(g)(3)(iii)].
- 5 (4) The Pooling Administrator website reports an inventory of 15 number blocks available in the Pasco rate center, and indicates that the exhaust of area code 509 is scheduled for the first quarter of 2011.
- 6 (5) This matter was brought before the Commission at its regularly scheduled meeting on October 12, 2005.

## ORDER

### THE COMMISSION ORDERS:

- 7 (1) Neustar, Inc., acting as Pooling Administrator, to release one number block in the Pasco rate center, area code 509, to Qwest Corporation.
- 8 (2) The Commission retains jurisdiction over this matter to take such future actions as may be appropriate.

The Commissioners, having determined this Order to be consistent with the public interest, directed the Secretary to enter this Order.

DATED at Olympia, Washington, and effective this 12<sup>th</sup> day of October, 2005.

WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION

CAROLE J. WASHBURN, Secretary
