Re: Cecil and Jennie Bronkhorst
 Dba Country Garbage Service
 Certificate G-45

Dear Sir or Madam:

Attached are new tariff pages containing rate increases as required by a projected cost of labor and an experienced cost of fuel. Tariff pages 1, 22, 31,33 and 34 reflect these changes.

I am somewhat computer illiterate and uncertain how this electronic filing would work so the issue date on the tariff pages are October 1 and effective date November 15, 2005 are used to provide some latitude to get the wrinkles out; however, Cecil Bronkhorst would like an effective date of November 1 if this is at all possible.

Therefore attached is an LSN, customer notice, proposed tariff pages, a balance sheet, a statement of operations with proposed changes, detail of increased expense, and a detail sheet of the effect of proposed prices.

If additional information is needed, please call (509) 839-2244, and I will try to remedy the shortcomings of this filing.

Sincerely,
David Proebstel
