Ref. No. Docket PG-080109

August 17, 2009

Keith Meissner
Manager Safety and Compliance
Cascade Natural Gas Corporation
222 Fairview Ave. N.
Seattle, WA 98109

Dear Mr. Meissner:

RE: 2008 Natural Gas Standard Inspection – Tri-Cities/Walla Walla

The purpose of this letter is to follow-up our email communication regarding the identification and correction of a typographical error you discovered in the 2008 Tri-Cities/Walla Walla Standard Inspection letter dated July 31, 2009.

On August 6, 2009, you contacted me by email and requested that I clarify which Cascade Procedures (CP's) were involved in probable violation 11, finding 16, in the above referenced letter. The finding read as follows:

16. **Finding(s):**
CNG procedures 750.072 and 950.074 provide contradictory leak grading information.

Upon review it was determined that this finding contained a typographical error and on August 10, 2009, you were provided with a correction by email. The correction to this finding reads as follows:

16. **Finding(s):**
CNG procedures 750.072 and 750.074 provide contradictory leak grading information.

Please reference this error and subsequent discussion in your response. Thank you for bringing this matter to our attention.

Sincerely,

Stephanie Zuehlke
UTC Pipeline Safety Engineer
