Subject: Replacement Pages for Legal Descriptions

Lisa,

I just discovered that the legal descriptions in the Exhibit B attachment I just mailed you incorrectly refer to State Route 167. This error in referencing the state route dates back to the original UTC order U-9702. It needs to be corrected while I have done in these revised legal descriptions. Would you exchange these two page for the ones I just mail you with the original signed application today, or do I need to send a complete revised Exhibit B?
