Re: Point Recycling & Refuse

This letter is to confirm that as a customer of Point Recycling & Refuse, I agree with Arthur Wilkowski that curbside recycling is unfeasible in Point Roberts.

I always did think that the pollution - emitting behemoth of a recycling truck stopping at people's houses to pick up recycling rather negated the point as far as saving our environment - much better to gather up one's own recycling & take it to the transfer station whenever a large enough load makes it worthwhile.

We are more than happy to take our own recycling to the transfer station and would appreciate the rules being more flexible to allow this.

Yours sincerely

Sue Johnson
