WATER SERVICE
RULES AND REGULATIONS

Rule 17 – Account Set-Up Charge/NSF (Non-Sufficient Funds) Charge

An account set-up charge as specified in **Schedule X** will be made for each new account or change of account responsibility on an existing service. Such charge will be included in the initial billing to the customer. This charge includes the utility dispatching and employee to establish a base meter reading. This account set-up charge does not apply to:

- (a) Installation of a new meter.
- (b) Temporary or seasonal reconnection.
- (c) Owners or agents assuming temporary responsibility for service to vacant premises.

An NSF check charge as specified in **Schedule X** will be made for handling customer checks that have been returned by the bank as NSF or account closed. This charge will be applied to the next billing to the customer.

Rule 18 – Water Availability Letter Charge

Any prospective customer seeking a water availability letter or certificate of water availability from the utility must first pay the appropriate charge as specified in **Schedule X**. The water availability letters will be valid for no more than one (1) year, or until the expiration of the associated building permit, whichever occurs last. Certificates of Water Availability, issued only upon payment of service connection and facilities charges to purchase the direct connection, do not expire.

Rule 19 – Credit Card Processing Fee/ Credit Card Chargeback Fee

The utility now accepts bill payment via VISA or MasterCard by telephone, and customers may use either credit or debit cards. When a customer makes payment using this service, a credit card processing fee will be charged per transaction as specified in **Schedule X** to partially offset the utility's associated administrative costs. In the event that a customer initiates a credit or debit card transaction which is disallowed by the credit card company, a credit card chargeback fee will be charged to the customer's account as specified in **Schedule X**.
