RE: PacifiCorp's Report on its Ten-year Achievable Conservation Potential and its Biennial Conservation Target for 2010 and 2011

Dear Mr. Danner

WAC 480-109-010(3) requires that on or before January 31, 2010 and every two years thereafter, each electric utility must file with the Washington Utilities and Transportation Commission ("Commission") a report identifying its ten-year achievable conservation potential and its biennial conservation target. In compliance with this requirement, please find enclosed PacifiCorp's report to the Commission which identifies its ten-year achievable conservation potential and its biennial conservation target for 2010 and 2011 and describes the process by which they were developed. Please note that appendix 1 and 2 are voluminous and therefore provided on the enclosed CD.

If you have any questions regarding this report, please contact Cathie Allen, Regulatory Manager, at (503) 813-5934.

Sincerely,

Andrea L. Kelly
Vice President, Regulation
