RE: Mason County Docket Number TG-090899

Mr. Gomez:

As a follow-up to our conversation on October 13th, the Company believes to have supplied the required documentation to the WUTC regarding revenue share for the prior year.

Mason County and Mason County Garbage & Recycling agreed to a recycling plan for cart recycling. In that plan, if the County certifies to the satisfaction of the County that the hauler has demonstrated compliance with the goals and components of the plan for the twelve month period in question, then the hauler is entitled to a 30 percent revenue share.

Mason County Utilities & Waste Management notified the WUTC on September 14th and on October 13th that the Company has complied and is entitled to the full 30 percent revenue share.

Please notify me if you require further information on this matter.

Sincerely,

Dan Schooler
Vice President, Northern Washington Division
