**Subject:** 2011 Public Awareness Program Inspection Report Docket No. PG-110644 Request for extension

Good Afternoon Dave,

As we discussed this morning I am writing to request an extension for PSE's response to the Areas of Concern identified in the 2011 Public Awareness Program Inspection Report. The storm event that began January 16th required direct participation from Dorothy Bracken, who is the Manager of PSE's Public Awareness Program. Dorothy worked in the EOC on the night-shift for over a week handling corporate communications and updates on customer outages that impacted a large portion of PSE's service territory. Since Dorothy's input is critical to our response regarding the AOC's I am requesting an extension of our deadline from February 8, 2012 to February 24th, 2012.

Thank you for your consideration,

Regards,

**Cheryl A. McGrath**
