

January 13th, 2012

Century Link Business

 is requesting additional DID's to support growth on campus. Our need is for 500 DID's to be used for E911 purposes and will be assigned to the PSALI database.

We request the prefix 592 to accommodate this internal range of numbers:

592  (500 DID's)

We require like the numbers to have the same prefix and that the prefix is 592 so that it fits within our current dialing plan. We would appreciate receiving these numbers by March 2nd, 2012.

Thank You
