Dear Mr. Eckhardt,

MacKaye Harbor Water Company requests the Commission place on the UTC agenda consideration to increase the allowable annual revenue per customer. In 2004 we contacted you requesting an increase in the maximum average annual revenue per customer for non-regulated water systems because there had been no increase since 1999. The Commission granted an increase in 2004 from \$429.00 to \$471.00 based on the rate of inflation as determined by the implicit price deflator of the U.S. Department of Commerce.

Even with that increase, we are still struggling to set aside reserve monies for the maintenance of our 25 year old system. We are asking that you once again consider increasing the maximum annual revenue allowed.

RCW 80.04.010 allows the Commission to increase this fee on an annual basis. It has not been increased since 2004 and we request that you revisit the annual revenue allowed, increasing it from \$471.00 to \$557.00.

Thank you for your consideration in this matter.

Sincerely,

Helen Cosgrove  
President
