RE: Request Review of Application Dismissal

Dear Sir or Madam:

I, Steve Terry, president of Bicycling and Hiking Tours, LLC request a Commission Review of the dismissal of my company's application for the extension of our authority to operate in the State of Washington.

In the Order of Dismissal Notice that I received it states that on August the 7th, 2012 I partook in a conference call with the Washington State Utilities and Transportation Commission and during this call the staff went over the requirements for the application and each deficiency. This is untrue.

I did receive a call from Ms. Leipski, but it was never a conference call. Ms. Leipski called me without prior notice that she was going to contact me and at no time did she state that our telephone conversation was a conference call or that any other person(s) was on the line. Nor did she go over the requirements for the application, nor each deficiency. What she did say is as follows. "I have received your application, but it is a little vague. I need more detailed information on the roads your company will be traveling on. I need to be able to see on a map the streets and highways that your vehicles will be transporting passengers. Please send this information to both me and Ms. Ingram in an email."

I told Ms. Leipski that I would do so, but I did not as I was busy with work and forgot to get the information off to her. Again, I do apologize for my transgression.

On November 9th I responded to Ms. Leipski's letter dated October 15th, 2012. In my letter of response I indicated, in detail, the roads that my company would be traveling on as per Ms. Leipski's request. In Ms. Leipski's letter sent on the aforementioned date it states that she is in need of Insurance Form E, which my

insurance company has sent in, and the specific routes that my company is applying for. (Please see the enclosed copy of this letter.)

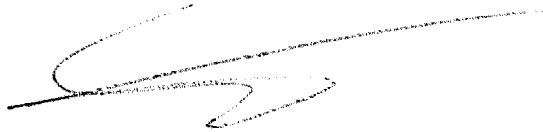

This letter does not state that the Utilities and Transportation Commission is in need of: "what type of service my company will provide", "between what points we will provide this service", nor the need for information for a fixed termini, regular route, or that a map needs to be provided, as stated in the Order Dismissing Application.

To be clear, in the letter sent to Ms. Leipski on November 9th, 2012 it clearly states in the third paragraph on page one that we do not transport passengers on set routes.

In closing I do want to state that the information that the Utilities and Transportation Commission requested from me was not detailed enough for me to submit a proper application, and therefore it should be ruled that my company should be able to resubmit a more detailed application pursuant to the Commission's needs.

Thank you for your time and consideration.

Sincerely,

A handwritten signature in black ink, appearing to read "Steve Terry". The signature is fluid and cursive, with a long horizontal stroke extending to the right.
