Re: Docket TV-131892
Order 01
Order Dismissing Application

To Whom It May Concern,

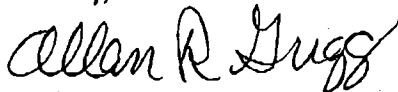

This letter is to ask for a reconsideration of the Order dismissing my application for a permit to operate as a Common Carrier, due to the following reasons.

Last spring I bought a truck and trailer, after being told that there would be plenty of work from the local gravel pit. But I didn't get as much work as I was told, and was forced to work construction out of town just to make my truck payments. So I ended up being out of town from early October until last week, and barely got home on some weekends. Of course on the weekends businesses are closed. I had been dealing with an insurance company that I thought had send to you the proper documents, and then found out later, that they didn't want to meet the liability amount that is required. I then had to find a new insurance company to get this taken care of.

I did not intend for this process to drag on so long. And I'm hoping that Progressive Insurance has contacted you and sent you the proper documents. I was told that they had sent via email the Certificate of Liability on Jan. 7th and then again with a minor correction on Jan. 10th, 2014.

I would very much appreciate your reconsideration of my application.

Sincerely,

Allan R. Grigg
