Pursuant to the Commission’s Order, \$59.2 million was to be passed back to customers based on usage in the month of December 2014. Due to temperatures in December 2014 being much warmer than forecast, PSE did not pass back all of this money to customers. The current balance stands at \$7.1 million.

The Commission's Order provided in paragraph 4 part (5) that if the residual balance owed from or due to all customers exceeds \$100,000 after December 31, 2014, this amount would be surcharged or credited to customers through a filing made no later than March 31, 2015. As required by the Order, this filing is intended to set rates effective May, 1, 2015, through May 31, 2015, to pass back the remaining \$7.1 million based on PSE's projected kWh usage for the month of May 2015.

As required by WAC 480-07-885(1)(c) a copy of this filing has been served on each party in Docket No. UE-132027.

The enclosed tariff sheets reflect issue dates of March 27, 2015, and effective dates of May 1, 2015. Work papers that demonstrate the derivation of the rates proposed to be implemented by the enclosed tariff sheets are attached herewith in electronic format.
