6. SWITCHED ACCESS SERVICE

6.8 RATES AND CHARGES (Cont'd)

6.8.2 LOCAL SWITCHING

A. Local End Office Switching

RATE PER ACCESS MINUTE

1. Local Switching

- Originating \$0.014441
- Terminating 0.000807 (R)

- End Office Shared Port
 - Originating 0.000590
 - Terminating 0.000306 (R)

- | | USOC | MONTHLY
RATE |
|--|-------------|-------------------------|
| • End Office Dedicated Trunk Port,[1]
per trunk | P4TWX | \$4.23 (R) |

[1] The End Office Dedicated Trunk Port rate was calculated assuming a 50/50 split of the originating and terminating traffic using this flat-rated port. The FCC in their FCC 11-161 ICC Transformation order in section 51.907(d)(1) allowed Price Cap Carriers to use an equal split to divide the charge between originating and terminating elements. When the terminating portion of the rate is reduced and then combined with the originating portion of the rate a single flat rate is generated for billing purposes. The Originating portion of the charge is \$3.00.
