Docket # 170180

From our summary of our initial filing:

Proposed agreement with Palmer's Mutiny Bay Homeowners' Association for a water main extension and consolidation to provide water to Palmer's Mutiny Bay service area. This extension and replacement of Palmer's Mutiny Bay water system will provide service to approximately 18 connections. The developer would pay the costs for the line extension and water distribution system and convey the water system piping to the company. The company provides water service to approximately 650 customers on 10 water systems located on Whidbey Island in Island County. The proposed effective date is April 15, 2017.

We now have an official effective date of September 1, 2017. This is the customer notice going out to 18 customers who were previously under Palmer's Mutiny Bay Homeowner's Association and will now become customers of Lehman Enterprises, Inc. The second page of the notice is our water service application.
