SCHEDULE NO. 10
SERVICE CONNECTION CHARGE

Available

Within the limits of all Water Service Areas and at utility's option and capability to maintain Department of Health standards of quantity and quality.

Applicable

Applies to all new applicants for properties not currently served and not within the Commission Service Area (as defined in the tariff) for the utility only when surplus system capacity is available and a direct connection can be made to an existing main that has adequate hydraulic capacity.

Conditions

1. A charge will be made the first time a customer's service pipe, 3/4 inch or smaller, is connected to the utility's main. The charge for a larger connection will be the cost of labor and materials. This charge does not include the cost of a meter, or its installation. A meter will be furnished, installed and maintained by the utility without direct cost to the customer.
2. The utility owns and maintains all materials involved in making a service connection.
3. The service connection charge must be paid before the water is turned on.
4. In addition, when it is necessary to cross or cut an existing road (by boring or cutting) the cost of the crossing will be in addition to the Service Connection Charge.
5. Meter will be placed in a suitable meter box located at the customer's property line, except when this is not practicable. The meter will be installed upon the customer's premises in some convenient location approved by the utility where the meter will at all times be accessible for reading, inspection and testing. (See Rule 8 & 9)

SCHEDULE No. 11

GENERAL FACILITIES CHARGE (cont'd)

Conditions:

1. Any owner, owner's agent, developer, purchaser or purchaser's agent who is a "water service applicant" shall first pay the charge set forth on this Schedule, prior to provision of water service by the utility. A "water service applicant" is a person or entity who has requested water service but has not yet become a "customer."

2. For the purpose of this tariff, a customer is defined as follows:

(a) A person or entity whose property is directly connected to the water system.

3. The Facilities Charge does not apply to persons or entities who are customers on or before the effective date of this tariff.

4. The utility will own and maintain all materials involved in the provision of water service.

5. The Facilities Charge will be in addition to any main extension, service connection, or other charges as may be provided elsewhere in this tariff or specified in any contract between the applicant and the utility.

6. The Facilities Charge will be made one time only as applied to the applicant's property, after which time the applicant will be directly connected to the water system. If further subdivision of property is made at a later date, each new direct connection will be subject to an additional Facilities Charge, upon application for water service.

7. The Facilities Charge applies to one direct connection on one parcel of real property commonly known as one residential unit. For an existing customer, each additional dwelling unit, e.g., duplex, "mother-in-law" dwelling, ADU, DADU, Tiny House, or multiple thereof, on said parcel will be subject to an additional Facilities Charge.
