

PUGET SOUND ENERGY
Electric Tariff G

SCHEDULE 57
CONTINUOUS LIGHTING SERVICE

(Single phase or three phase where available)

1. **AVAILABILITY:** This schedule is available for energy required to operate traffic control, traffic directing, traffic signal, traffic safety, or other standard traffic management devices or fixtures approved by the Company. (C)
|
(C)
2. **MONTHLY RATE PER WATT OF CONNECTED LOAD:** \$0.03927
3. **ADJUSTMENTS:** Rates in this schedule are subject to adjustment by such other schedules in this tariff as may apply.
4. **LINE EXTENSIONS:** The Company's primary or secondary distribution circuits will be extended by the Company for service under this schedule at the Customer's expense.
5. **DETERMINATION OF CONNECTED LOAD:** Connected load shall be the total nameplate rating of all components of the device(s) or fixture(s), whether or not these components will be energized simultaneously. The Customer must provide the Company information from which the Company can determine the level of watt usage to be consumed, such as the manufacturers' equipment specifications or data sheets that document the nameplate rating as Power in Watts (W), and the number of devices to be installed. If the manufacturers' documentation or documented Power in Watts (W) is not available, the Customer has the responsibility of providing the information necessary to establish the nameplate rating in a manner satisfactory to the Company. (C)

|
|
|
|
|
(C)
6. **INVENTORY FOR UNMETERED SERVICE:** The Customer shall notify the Company of all removals of Customer-owned devices or fixtures, or of any changes in the total nameplate rating of all components of the devices or fixtures, on a timely basis. Notifications regarding removals or changes to existing equipment shall include, (a) the total connected load and supporting manufacturers' documentation, (b) the approximate street address of the location of the equipment, and (c) if available, the PSE pole number. (N)

SCHEDULE 57
CONTINUOUS LIGHTING SERVICE

(Single phase or three phase where available)

7. **Audit:** The Company may from time to time, at its discretion, audit the Customer's devices and fixtures (installations), which may include performing onsite inspections to verify the energy consumption of the device(s). In the event discrepancies are discovered in the audited sample, the Company may audit the entire Customer inventory. If the audit shows that the Customer has unduly added devices or fixtures without the Company's consent, the audit will be at the expense of the Customer and all devices or fixtures not included, or included at an incorrect nameplate rating, will be billed effective from the first date of connection, if ascertainable, or for the last three (3) years, whichever is less. If the audit shows that the Customer has reduced the number of devices or fixtures in use, the audit will be at the expense of the Company, and the Customer will receive a credit, effective from the first date of documented removal from service. (N)
8. **GENERAL RULES AND PROVISIONS:** Service under this schedule is subject to the General Rules and Provisions contained in this tariff. (M)

(M) Transferred from Sheet No. 57
