RE: *Washington Utilities and Transportation Commission v. Zippy Disposal Service, Inc.*  
Docket TG-190396

Dear Mr. Johnson:

On May 31, 2019, commission staff (staff) provided an evaluation of the Safety Management Plan submitted by Zippy Disposal Service, Inc. in Docket TG-190396. Staff believes the company took all of the required steps to bring its safety operations into compliance with commission regulations. Based on the company's corrective actions, staff recommends the commission not cancel the company's permit and upgrades the company's proposed unsatisfactory safety rating to conditional.

On May 29, 2019, staff spoke with the company and found that the company accepts the conditional rating and waives its right to a hearing. Accordingly, staff recommends the commission cancel the brief adjudicative proceeding scheduled for June 19, 2019.
