The Washington Utilities and Transportation Commission (Commission) believes that you have violated Revised Code of Washington (RCW) 19.122.030(1)(a) by failing to outline the proposed excavation area in white paint prior to providing notice to the state one-call request service. RCW 19.122.070(1) states, in part, that violations of any provision of the chapter are subject to a civil penalty of not more than \$1,000 for an initial violation and not more than \$5,000 for each subsequent violation within a three-year period.

The Commission reviewed findings and recommendations made by the Washington State Dig Law Safety Committee (Safety Committee) and hereby notifies you that it is assessing a penalty against you for \$1,000 on the following grounds:

On June 11, 2019, the Safety Committee heard complaints for cases 18-085 and 19-006 against Greg's Post Corporation (Company) regarding two alleged violations of the Washington State dig law, RCW 19.122, that occurred on October 8, 2018, and February 20, 2019, respectively. The complainant in these cases was McChord Pipeline Company (McChord). The Safety Committee determined that the Company committed the following violations:

- One violation of RCW 19.122.030(1)(a) on October 8, 2018, for failing to outline the proposed excavation area in white paint prior to submitting a utility locate request.
- One violation of RCW 19.122.030(1)(a) on February 20, 2019, for failing to outline the proposed excavation area in white paint prior to submitting a utility locate request.

The Safety Committee recommends that the Commission assess the following \$1,000 penalty against the Company:

- \$1,000 penalty for two violations of RCW 19.122.030(1)(a); and
- The opportunity to suspend the entire \$1,000 penalty amount if Tim Savolywk of Greg's Post completes National Utility Contractor Association (NUCA) Dig Safe Training within 12 months of the date of this Notice, and

the Company incurs no additional dig law violations within 12 months of the date of this Notice.

Commission regulatory staff (Staff) reviewed the Safety Committee's determination and agrees with its conclusion. Staff found that the Company violated RCW 19.122.030(1)(a) on October 8, 2018, and again on February 20, 2019. Staff based this decision on the following information provided by the Safety Committee:

(First Violation)

McChord alleged in complaint 18-085 that on October 8, 2018, Greg's Post did not mark its proposed excavation area with white paint prior to notifying 811 via dig ticket 18441926 of its intent to excavate. When McChord arrived to mark the location of its underground utilities in the excavation area, it was unable to determine where the excavation area was because Greg's Post had not marked the excavation area with white paint. This resulted in unnecessary inconvenience and expense for McChord. After reviewing statements and evidence presented by McChord and Greg's Post, the Safety Committee determined that Greg's Post violated the notification requirements of the dig law by not identifying the excavation area prior to notifying 811 as required by RCW 19.122.030(1)(a).

(Second Violation)

The Safety Committee reviewed complaint 19-006, also submitted by McChord, and found that a second violation of RCW 19.122.030(1)(a) occurred on February 19, 2019, when Greg's Post notified 811 of its intent to excavate via dig ticket 19056355 without first outlining its planned excavation area in white paint. When McChord arrived to mark its underground utilities, it had no indication of where utility locate marks were needed at the site, resulting in unnecessary inconvenience and expense for McChord. The statements and evidence provided to the Safety Committee resulted in a determination that Greg's Post violated the notification requirements of RCW 19.122.030(1)(a).

Staff recommends the Commission assess a \$1,000 penalty against the Company for two violations of RCW 19.122.030(1)(a), for failing to outline the proposed excavation area in white paint as required prior to submitting a utility locate request, as follows:

- \$1,000 penalty for two violations of RCW 19.122.030(1)(a) that occurred on October 8, 2018, and February 20, 2019.

Staff's research and discussion with the Company representative indicate that the Company has a positive history of submitting utility locate requests, and that the violations appear to be the result of the Company's reliance on clients to mark some of the excavation sites rather than a lack of knowledge of the requirements of Washington's dig law. The Company has since updated its practices and work request form to prevent future violations. After considering all of the circumstances, Staff concurs with the Safety Committee's recommendation that the Commission offer to suspend the entire \$1,000 penalty amount for a period of one year subject to the following conditions: (1) Tim Savolywk of Greg's Post attend Dig Safe training provided through the

National Utility Contractors Association (NUCA) within 12 months of the date of this Notice; and (2) Greg's Post commits no further violations of RCW 19.122 within 12 months from the date of this Notice.

The Commission agrees with Staff's recommendation and assesses a penalty of \$1,000 with an offer to suspend the entire \$1,000 penalty amount subject to the conditions listed above. The Commission will waive the suspended penalty amount of \$1,000 if the Company complies with both conditions. If the Company fails to comply with either of these conditions, the \$1,000 suspended penalty will become immediately due and payable, in addition to any new penalties that the Commission may assess for additional violations.

These facts, if not contested or if proved at a hearing and not rebutted or explained, are sufficient to support the penalty assessment.

Your penalty is due and payable now. If you believe violations did not occur, you may deny committing the violations and contest the penalty through evidence presented at a hearing or in writing. Alternatively, if there is a reason for the violations that you believe should excuse you from the penalty, you may ask for mitigation (reduction) of the penalty through evidence presented at a hearing or in writing. The Commission will grant a request for hearing only if material issues of law or fact require consideration of evidence and resolution in a hearing. Any request to contest the violations or for mitigation of the penalty must include a written statement of the reasons supporting that request. Failure to provide such a statement will result in denial of the request. *See* RCW 81.04.405.

If you properly present your request for a hearing and the Commission grants that request, the Commission will review the evidence supporting your dispute of the violations or application for mitigation in a Brief Adjudicative Proceeding before an administrative law judge. The administrative law judge will consider the evidence and will notify you of his or her decision.

You must act within 15 days after receiving this notice to do one of the following:

- Pay the \$1,000 amount due;
- Notify the Commission that you accept the offer to suspend, and ultimately waive, the \$1,000 penalty amount subject to the following conditions:
 - Tim Savolywk of Greg's Post attends Dig Safe training provided through NUCA within twelve (12) months of this Notice; and
 - submits documentation of that attendance to the Commission within five (5) days of attending the training; and
 - Greg's Post commits no further violations of RCW 19.122 within twelve (12) months of the date of this order; or
- Request a hearing to contest the violation; or
- Request mitigation to reduce the amount of the penalty.

Please indicate your selection on the enclosed form and send it to the Washington Utilities and Transportation Commission, P.O. Box 47250, Olympia, Washington 98504-7250, **within FIFTEEN (15) days** after you receive this notice.

If you do not act within 15 days, the Commission may refer this matter to the Office of the Attorney General for collection. The Commission may then sue you to collect the penalty.

DATED at Lacey, Washington, and effective July 22, 2019.
