PURPOSE, SCOPE, AND AUTHORITY

Purpose

The purpose of this investigation is to determine whether Westside Waste, LLC, (Westside Waste or Company) operated as a solid waste collection company without the certificate required for such operations by RCW 81.77.040.

Scope

This investigation focuses on information obtained by Washington Utilities and Transportation Commission (Commission) staff (Staff) relating to Westside Waste's transportation of solid waste to transfer facilities in Snohomish County.

Authority

Revised Code of Washington (RCW) 80.01.040, RCW 81.01.010, and chapter 81.77 RCW collectively require the Commission to regulate persons engaging in the transport of solid waste on public highways for compensation in Washington. RCW 81.04.510 authorizes the Commission to institute a special proceeding when it believes a person is operating or has operated without the necessary authority. Appendix A includes relevant laws and rules.¹

Staff

¹ Attachment A - Applicable laws and rules

EXECUTIVE SUMMARY

After receiving an informal complaint, Staff investigated whether Westside Waste is complying with statutes and rules administered by the Commission. Staff reviewed records provided by the Snohomish County Public Works Department on August 19, 2019, and documented a total of 113 instances where Westside Waste transported solid waste to disposal facilities between June 3, 2019, and August 6, 2019. Accordingly, Staff alleges that Westside Waste violated RCW 81.77.040, which requires persons to obtain a certificate of convenience and necessity from the Commission before transporting solid waste on the public highways of Washington for compensation, a total of 113 times.

Penalty Recommendation

RCW 80.04.380-.390 authorize the Commission to assess a penalty of up to \$1,000 per violation of the public service laws. Staff believes that the facts here justify imposition of the maximum penalty per violation, for a total of \$113,000. Staff believes Westside Waste knowingly violated state laws because the violations occurred after Staff provided significant technical assistance to the Company and after the Company acknowledged understanding the rules pertaining to solid waste transportation. The recommended penalty provides a significant incentive to avoid repeat violations. Staff, accordingly, recommends that the Commission issue a formal complaint against Westside Waste and assess a penalty of up to \$113,000 for 113 violations of RCW 81.77.040.

BACKGROUND

Company Information

Washington Secretary of State (SOS) records indicate Westside Waste registered in the state of Washington as a limited liability company. SOS records list Gary Van Laar as the governing person and registered agent. Washington Department of Revenue (DOR) records show Westside Waste as an active limited liability company, starting business on June 22, 2017. The Company's UBI number is 604-142-408 and Gary Van Laar is the governing official.² The Commission issued Westside Waste a common carrier permit on September 11, 2017.³ DOR and SOS list the Company's physical and mailing address as 1805 249th Street NE, Arlington, Washington 98223.

INVESTIGATION

Overview

On May 20, 2019, Staff received a complaint alleging that Westside Waste was transporting solid waste illegally. Staff investigated Westside Waste and determined that the Company is operating as a solid waste collection company without a certificate of public convenience and necessity from the Commission in violation of RCW 81.77.040.

Staff finds that the Company transports solid waste based on the following facts:

² Attachment C - Business License Department of Revenue.

³ Attachment D - Common Carrier Permit.

1. Westside Waste accepts jobs for the transportation of construction debris with the intent to transport that debris to a solid waste facility.
2. Westside Waste transported 113 loads, with an average of 3.6 tons per haul, to Snohomish county transfer stations located at 10700 Minuteman Drive, Everett, Washington, and 19600 63rd Avenue NE, Arlington, Washington, between June 4, 2019, and August 6, 2019.⁴
3. Westside Waste admitted to Staff that the Company also transports solid waste to Shelco, Inc., a private solid waste facility owned by a member of the Tulalip tribe.

Commission History

Intrastate Common Carrier Permit

On July 26, 2017, Gary Van Laar submitted an application (ID A170506) for an Intrastate Common Carrier Operating permit for Westside Waste. The application is for general commodities only and Westside did not seek authority to transport solid waste.⁵ The Commission approved Westside Waste's application for **common carrier** authority on September 11, 2017.

On the application for authority, Mr. Van Laar listed one vehicle, which is identified by the United States Department of Transportation (DOT) number 3029999. According to the Department of Licensing (DOL), this vehicle is a 2013 Caterpillar CT660 straight truck, with a Vehicle Identification Number of 1HTJGTKT8DJ162034, registered to Westside Waste at 1805 249th Street NE, Arlington, Washington, 98223. DOL vehicle records indicate the vehicle's license plate, C85802J, was last renewed on September 17, 2019, and expires on September 29, 2020.

Given the name on the application (Westside Waste) and the DOT number listed, Staff had concerns about whether Westside Waste would engage in activities that required a solid waste certificate rather than a motor freight carrier permit. Accordingly, on July 26, 2017, Staff sent Westside Waste a Notice of Deficient Application requesting more information on the Company's business plan for transporting garbage and refuse.⁶

Westside Waste did not respond to the July 26, 2017, Notice of Deficient Application. On August 31, 2017, the Commission sent a second Notice of Deficient Application requesting information about the Company's plans to transport garbage and refuse and also requesting a Uniform Motor Carrier Certificate of Insurance from Westside Waste's insurance company.⁷

⁴ Attachment B - Snohomish County Public Works Transfer Station records for Transaction by Customer Detail Report.

⁵ Attachment E – Application for common carrier permit.

⁶ Attachment F - Notice of Deficient Application July 26, 2017.

⁷ Attachment G - Notice of Deficient Application August 31, 2017.

2017 Technical Assistance

On September 6, 2017, Staff spoke to Mr. Van Laar by phone about the Company's application. Mr. Van Laar asked Staff if Westside Waste should apply for a common carrier permit or a solid waste certificate. After Staff asked Mr. Van Laar about the nature and intended destination of materials the Company planned to transport, Staff provided technical assistance to the Company regarding the definitions of both common carrier authority and solid waste authority. Staff explained to Mr. Van Laar that the Company must obtain a solid waste certificate if it transports garbage or refuse to a solid waste facility. Staff also told Mr. Van Laar that if the Company collects recycling from a commercial generator but transports the recyclable material to a disposal facility, the Company is engaging in solid waste collection.⁸

On September 6, 2017, Staff emailed to Westside Waste registration links for the Department of Ecology and explained that the Company needed to register with that agency if it intended to transport recyclable materials to a recycling center.⁹ In its email, Staff reiterated that the common carrier authority from the Commission only authorized the Company to transport commercial recyclable material from a commercial generator to a licensed recycling center. Mr. Van Laar acknowledged receipt of this information by email reply the same day.¹⁰

2019 Investigation

On May 20, 2019, Staff received a complaint alleging that Westside Waste was preparing to transport roofing materials in a drop box from 4719 Sandcastle Drive, Birch Bay, Washington, to a disposal site. Staff reviewed Commission records and determined that Westside Waste had common carrier operating authority, but no certificate of convenience and public necessity authorizing it to engage in business as a solid waste collection company.

On May 23, 2019, Staff called Mr. Van Laar to discuss the complaint. Staff asked Mr. Van Laar about the intended destination of the drop box; Mr. Van Laar stated Westside Waste planned to take it to the transfer station in Arlington, Washington. Staff explained Westside Waste's common carrier permit only authorized it to transport recyclable materials to a materials recovery facility or a buy back center. Mr. Van Laar explained that recycling centers were no longer accepting roofing materials. Staff encouraged Mr. Van Laar to seek an alternate destination, as it would be illegal for Westside Waste to transport the drop box to a solid waste facility.

On May 29, 2019, Staff conducted a site visit at 4719 Sandcastle Drive, Birch Bay, Washington. Staff identified a drop box with Westside Waste's logo containing roofing material and comingled solid waste.¹¹

On June 3, 2019, Staff called Mr. Van Laar to follow-up about the disposal of the drop box materials. Mr. Van Laar stated that because Westside Waste was not allowed to take it to a

⁸ Attachment H - Staff documentation from September 6, 2017.

⁹ Attachment I - Email from Staff to Gary Van Laar September 6, 2017.

¹⁰ Attachment J - Email from Gary Van Laar September 6, 2017.

¹¹ Attachment K - Photos taken May 29, 2019, of the contents in Westside Waste's drop box.

county facility, it took the materials to ShelCo, a private solid waste facility within the Tulalip Reservation. Staff advised Mr. Van Laar that Westside Waste could not transport materials to any solid waste facility prior to obtaining a solid waste certificate. Staff again advised Mr. Van Laar about the rules regarding solid waste transportation. Staff provided technical assistance to Mr. Van Laar, explaining that Westside Waste could only transport materials to recycling centers, not transfer facilities or solid waste facilities. Mr. Van Laar verbally acknowledged to Staff that he understood Westside Waste could not accept work transporting roofing materials to a solid waste facility without being potentially subject to penalties by the Commission. Staff encouraged Westside Waste to apply for a solid waste certificate, but informed Mr. Van Laar that all applications are subject to public protest. Mr. Van Laar then informed Staff that Westside Waste did not wish to go through the process of obtaining a solid waste certificate and would limit its operations so that it only needed a common carrier permit.¹²

On June 6, 2019, Mr. Van Laar called to request an application for solid waste, which Staff provided.¹³ Staff's investigation closed June 6, 2019, after Staff provided Mr. Van Laar technical assistance regarding solid waste transportation and Mr. Van Laar represented that he would not transport solid waste without a certificate.

On July 1, 2019, Staff received a complaint that on June 27, 2019, Westside Waste transported solid waste to the North County Transfer station in Arlington, Washington. The complainant provided photos of Westside Waste's vehicle at the solid waste facility.¹⁴

On July 11, 2019, Staff spoke with Mr. Van Laar by phone to inquire about the complaint. Mr. Van Laar stated that Westside Waste considered the materials transported as construction debris and that it should be allowed to transport the debris because he had common carrier authority. Staff reopened the complaint investigation for Westside Waste.

On July 17, 2019, Staff submitted a data request to Snohomish County Public Works, Solid Waste Division.¹⁵

On July 18, 2019, Snohomish County responded to the data request with a report of all transactions performed by Westside Waste from January 3, 2019, through July 17, 2019.¹⁶ That data showed that since June 6, when Mr. Van Laar acknowledged that Westside Waste's common carrier permit did not authorize it to transport garbage or refuse to solid waste facilities, Westside Waste had transported materials to Snohomish County transfer stations on 82 separate occasions.

¹² Attachment L - Email to Mr. Van Laar dated June 3, 2019.

¹³ Attachment M - Email to Mr. Van Laar dated June 6, 2019.

¹⁴ Attachment N - Photos from June 27, 2019.

¹⁵ Attachment O - Email to Jon Greninger, Snohomish County Solid Waste Special Projects Coordinator.

¹⁶ Attachment P - Transaction by customer detail report provided by Snohomish County Public Works July 18, 2019.

On July 22, 2019, Staff received another complaint that Westside Waste was transporting solid waste to the North County Transfer Station. The complainant provided photos of the Company disposing of materials at the solid waste pit.¹⁷

On July 25, 2019, the complainant again emailed Staff reporting additional transportation and disposal of solid waste by Westside Waste. The complainant provided additional photos.¹⁸

On August 5, 2019, the Commission received an application from Westside Waste for a solid waste certificate. Mr. Van Laar dated the application July 30, 2019, on behalf of the Company. In the application, Westside Waste did not request temporary authority. Mr. Van Laar signed section eight, Declaration of Applicant, which provides the application does not in itself constitute authority to operate as a solid waste collection company.¹⁹

On August 6, 2019, while Staff was observing activities at the North County Transfer Station, a white Chevy truck with plate number C64960E entered the facility with a black dump trailer attached. The truck contained roofing material. Staff questioned the driver, inquiring about the origin of the load. The driver stated it was from a roofing job for S & S Roofing. Staff asked the driver if both the truck and trailer were S & S Roofing's equipment. The driver said that he did not know. Staff called S & S Roofing; an employee stated that the box did belong to S & S Roofing, but the truck did not. A search of Department of Licensing records showed Gary Van Laar as the truck's registered owner.²⁰

On August 9, 2019, Mr. Van Laar contacted Mathew Perkinson, Assistant Director of the Commission's Transportation Safety Division, to request clarification about Westside Waste's business operations. Mr. Perkinson stated that Staff would contact him about his questions.²¹

On August 12, 2019, Staff emailed the Company a copy of WAC 480-70-016, which provides guidance on when a person needs Commission-issued authority. Staff also provided a copy of WAC 480-70-041, which defines "solid waste" to include demolition and construction waste. Staff informed Mr. Van Laar that Westside Waste must cease all transportation of solid waste until it obtained a certificate from the Commission.²² Mr. Van Laar responded, acknowledging receipt of the email the same day.²³

On August 19, 2019, Staff emailed a second data request to Snohomish County Public Works, Solid Waste Division. The response, coupled with the response to Staff's first data request, shows that Westside Waste continued to transport solid waste between June 3, 2019, through

¹⁷ Attachment Q - Photos from July 22, 2019.

¹⁸ Attachment R - Photos from July 25, 2019.

¹⁹ Attachment S - Solid Waste Certificate application received August 5, 2019.

²⁰ Attachment T - Department of Licensing search of plate C64960E.

²¹ Attachment U - Phone call to Mathew Perkinson from Gary Van Laar.

²² Attachment V - Email to Mr. Van Laar August 12, 2019.

²³ Attachment W - Email response from Mr. Van Laar August 12, 2019.

August 6, 2019, and shows a total of 113 trips to solid waste facilities. The data does not reflect any additional transactions at the county's transfer stations after August 6, 2019.

STAFF FINDINGS AND RECOMMENDATIONS

Findings

Staff finds that Westside Waste knowingly violated RCW 81.77.040 on at least 113 separate occasions by hauling solid waste without first obtaining a certificate from the Commission authorizing the Company to do so. Specifically, Westside Waste operated illegally when it:

1. Transported solid waste on the public highways for compensation after receiving a common carrier permit and technical assistance from Staff. The Company provided assurances that it would not transport to solid waste facilities.
2. Continued to transport solid waste to Snohomish County transfer stations for compensation after Staff provided technical assistance and explained that the Company must cease and desist transporting garbage and refuse to solid waste facilities until it received a solid waste certificate.
3. Continued to transport solid waste on the public highways for compensation after its governing person signed an application dated July 30, 2019, acknowledging that the Company could not transport solid waste until it received solid waste operating authority.

Penalty

Upon finding, that a Company violated an applicable statute, rule, order, or tariff, the Commission will consider whether to impose penalties for the violation.

Staff typically recommends a "per violation" penalty against a regulated company when the violations result in serious harm to the consumer, for repeat violations of a rule after the company receives technical assistance, or for intentional violations of Commission laws or rules.

The Commission has the authority to assess penalties of \$100 per violation through an administrative penalty process,²⁴ and also to assess penalties of up to \$1,000 per violation through a formal complaint process.²⁵

In this investigation, Staff documented 113 violations of statutes enforced by the Commission. Staff considered the following factors to determine the recommended penalty amount:²⁶

²⁴ RCW 80.04.405.

²⁵ RCW 80.04.380.

²⁶ Docket A-120061 – Enforcement Policy of the Washington Utilities and Transportation Commission – Section V.

1. **How serious or harmful the violations are to the public.**

The violations cited in this report are serious. Solid waste companies not certificated by the Commission pose safety concerns to the traveling public. It is in the public interest to ensure companies transporting solid waste have the necessary training, equipment, and resources to ensure safe and sanitary transportation. Further, companies that transport solid waste illegally take revenue from certificated solid waste collection companies.

2. **Whether the violations were intentional.**

On September 6, 2017, Staff provided Westside Waste with technical assistance while processing the Company's application for a common carrier permit and informed Mr. Van Laar that Westside Waste could not transport garbage or refuse to solid waste facilities without a certificate of public convenience and necessity. Mr. Van Laar acknowledged the technical assistance via email response.

On May 23, 2019, Staff again provided technical assistance to Mr. Van Laar prior to Westside Waste transporting roofing debris from 4719 Sandcastle Drive, Birch Bay, Washington. Staff clarified that Westside Waste could only transport the roofing materials to a recycling or buy back center.

On June 3, 2019, Staff once again provided Mr. Van Laar technical assistance after discovering that Westside Waste had transported roofing debris from 4719 Sandcastle Drive, Birch Bay, Washington, to a private solid waste transfer station.

Mr. Van Laar continued transporting to solid waste facilities despite Staff providing technical assistance multiple times and despite his stated understanding that Westside Waste was not authorized to transport solid waste. Staff believes Westside Waste knew or should have known about these requirements.

3. **Whether the company self-reported the violations.**

The Company did not self-report these violations.

4. **Whether the company was cooperative and responsive.**

The Company was not cooperative. Westside Waste failed to cease transporting solid waste despite receiving multiple rounds of technical assistance. Westside Waste did not submit an application for authority until after Mr. Van Laar knew an investigation was underway.

5. **Whether the company promptly corrected the violations and remedied the impacts.**

The Company continued to transport solid waste after receiving technical assistance from Staff on multiple occasions. Westside Waste continued to transport solid waste to transfer stations after Mr. Van Laar acknowledged that it could not do so until the Commission approved the Company's application. The Company did not correct the violations.

6. **The number of violations.**

Staff documented 113 violations of RCW 81.77.040 between June 4, 2019, and August 6, 2019. This is a significant number of violations.

7. **The number of customers affected.**

The violations affected ratepayers in Snohomish and Whatcom counties by infringing the service territories of certificated solid waste haulers, which may result in increased rates for drop-box services.

8. **The likelihood of recurrence.**

The Company has demonstrated a blatant disregard for Staff's requests that it cease and desist transporting solid waste until the Commission granted it authority to operate. Absent a significant commitment to prioritize compliance with solid waste laws, Staff believes the violations are likely to reoccur.

9. **The Company's past performance regarding compliance, violations, and penalties.**

The Company has no record of past performance regarding compliance, violations, or penalties with the Commission.

10. **The Company's existing compliance program.**

The Company does not have a compliance program in place with the Commission.

11. **The size of the company.**

The Company submitted a profit and loss statement with its solid waste application. According to Westside Waste, its gross income was \$416,223.93 in 2018.

Recommendation

Staff recommends that the Commission institute a classification proceeding under RCW 81.04.510 to determine whether Westside Waste is operating as a solid waste carrier in Washington without the certificate required for such operations by RCW 81.77.040.

Staff recommends that the Commission issue a complaint for penalties of up to \$1,000 per violation, for a total potential penalty of \$113,000, as authorized by RCW 81.04.380, against Westside Waste for engaging in the business of a solid waste carrier without obtaining the required certificate of convenience and necessity from the Commission.

Attachment A

Applicable Laws and Rules

RCW 80.04.405 allows the commission to assess an administrative penalty for any violation by a regulated company of a statute, rule, the company's own tariff, or commission order.

RCW 81.04.510 Duties of attorney general. It shall be the duty of the attorney general to represent and appear for the people of the state of Washington and the Commission in all actions and proceedings involving any question under this title, or under or in reference to any act or order of the Commission; and it shall be the duty of the attorney general generally to see that all laws affecting any of the persons or corporations herein enumerated are complied with, and that all laws, the enforcement of which devolves upon the Commission, are enforced, and to that end he or she is authorized to institute, prosecute, and defend all necessary actions and proceedings.

RCW 81.01.010 Adoption of provisions of chapter 80.01 RCW. The provisions of chapter 80.01 RCW, as now or hereafter amended, apply to Title 81 RCW as fully as though they were set forth herein.

RCW 80.04.380 allows the commission to assess a penalty of up to \$1,000 for each violation following a hearing.

RCW 81.77.040 requires a person to obtain a certificate of convenience and public necessity from the Commission before operating for the hauling of solid waste.

Re: **Notice of Deficient Application**
Application # A170506

Dear Westside Waste LLC:

The following items need to be completed and/or corrected for prompt processing of your application for operating authority. Please complete and return to our office by August 26, 2017. You may not operate until these issues are resolved and you have received your approved permit.

- Based on the name of your company and USDOT number I see you plan to haul Garbage/Refuse. Please explain in a more detail what your business plan is. Where and from whom will you be picking up garbage, how will you be picking it up, and where will you be dropping it off?

Who do I contact if I have questions?

You may call 360-664-1222 or e-mail us at transportation@utc.wa.gov. Our fax number is 360-586-1181.

Thank you,

Licensing Services
Washington Utilities and Transportation Commission

Re: **2nd Notice of Deficient Application**
Application # A170506

Dear Westside Waste LLC:

The following items need to be completed and/or corrected for prompt processing of your application for operating authority. Please complete and return to our office by 10/2/2017. You may not operate until these issues are resolved and you have received your approved permit.

- Based on the name of your company and USDOT number I see you plan to haul Garbage/Refuse. Please explain in a more detail what your business plan is. Where and from whom will you be picking up garbage, how will you be picking it up, and where will you be dropping it off? Please provide this information via email to transportation@utc.wa.gov and include your company name in the Subject line.
- Request a Uniform Motor Carrier Certificate of Insurance (Form E) from your insurance company. The insurance must show your name EXACTLY as it is shown above, and, the Washington Utilities and Transportation Commission (WUTC) must be shown as the certificate holder. Please ask your insurance company to email the insurance to transportation@utc.wa.gov.

Who do I contact if I have questions?

You may call 360-664-1222 or e-mail us at transportation@utc.wa.gov. Our fax number is 360-586-1181.

Thank you,

Desc 9/06/17 @ 1:50pm – Call was transferred from Katie Hancock at (360) 664-1244. I spoke with Gary Van Laar, owner of Westside Waste LLC.

Katie Hancock was unsure of which certificate or permit Westside Waste would need, so I inquired about what Westside Waste’s business model looks like for collection and transportation:

- I asked who generates the materials and his answer was only commercial developers.
- I asked what type of materials collected and his answer was plastic wrap, plastic pipe, wood, and metals; really anything recyclable from a construction project.
- I asked where he hauls the materials to and his answer was mostly United Recycling and other recycling facilities, but stated that he sometimes goes to transfer stations and landfills if recycling facilities are too far away.

I explained that he would need a solid waste certificate from the commission if he hauls to a transfer station, landfill, or any destination where the materials are being disposed of. I explained that an application for solid waste authority is subject to a 30 day protest period, and also subject to intervention. After explaining the process and the potential for a formal hearing, Mr. Van Laar stated that he didn’t want to do all that and stated that he’ll just haul to recycling facilities so that he just needs common carrier authority. I explained that a common carrier application is not subject to protest and intervention.

I explained the regulations for both common carrier authority and solid waste authority. I explained how the generator of materials, materials collected, and destination

<https://apps.utc.wa.gov/apps/investigations/Lists/Compliance%20Activities/DispForm.asp...> 9/30/2019

of the materials determine what business he's engaging in. I explained that if he collects pure recycling from a commercial generator but hauls the recyclable materials to a disposal facility, he would be engaging in solid waste collection. I explained that residential garbage and recycling, and commercial garbage are regulated services in the state of Washington that require solid waste authority.

I also explained how Westside Waste would need to register with the Department of Ecology (ECY) as a Transporter of Recyclable Materials. I explained that can be done online at no cost and Mr. Van Laar asked that I navigate him to the ECY page. I explained that I would just send him an email with the link, as well as my contact information should he have any questions or concerns. I also gave him my email address and phone number over the phone.

Mr. Van Laar gave me his email address of westsidewastellc@gmail.com to send the email. I thanked Mr. Van Laar for discussing the matter with me and the phone conversation was ended mutually.

Subject: Dept. of Ecology - Transporters of Recyclable Materials Registration

Gary,

Thank you for taking the time to speak with me over the phone regarding solid waste and common carrier regulations in the state of Washington.

Per our conversation, here is the [link](#) to register as a transporter with the Department of Ecology (ECY). The registration with ECY would be in addition to obtaining common carrier authority from the commission to haul commercial recyclable materials from a commercial generator to a licensed recycling facility.

If you have any questions or concerns, don't hesitate to contact me.

Sincerely,

Jason Hoxit

Gary,

Thank you for taking the time to speak with me over the phone regarding solid waste and common carrier regulations in the state of Washington.

Per our conversation, here is the [link](#) to register as a transporter with the Department of Ecology (ECY). The registration with ECY would be in addition to obtaining common carrier authority from the commission to haul commercial recyclable materials from a commercial generator to a licensed recycling facility.

If you have any questions or concerns, don't hesitate to contact me.

Sincerely,

Jason Hoxit

Good day, Mr. Van Laar,

The Washington Utilities and Transportation Commission (commission) believes you engaged in services that require a certificate from the commission. The purpose of this letter is to provide technical assistance to you with respect to Washington's solid waste hauling requirements. Staff of the commission recently discovered that Westside Waste, LLC provided containers for solid waste collection at 4719 Sandcastle Drive, Birch Bay, Washington 98230.

Operating or advertising as a solid waste hauler without the required certificate is illegal, and subject to a penalty of \$1,000 per violation. (RCW 81.04.380) Under the law, advertising of solid waste collection services is evidence of operating as a solid waste hauler. Solid waste collection includes residential and commercial garbage, residential recycling, yard waste, and drop box service. Until you obtain a solid waste hauling permit, you must immediately cease and desist from operating or advertising as a solid waste hauler in Washington State.

Westside Waste, LLC may not provide these services in Washington without a solid waste certificate from the commission. Until and unless the commission grants a solid waste certificate, Westside Waste, LLC must immediately cease providing all forms of solid waste collection services. If you wish to offer solid waste collection services, you must first apply for authority as a solid waste collection company. An application has been included in this letter. Be advised, however, that your application would be subject to a public protest period and you would have to demonstrate that the existing solid waste company is not providing the service you propose to offer. The commission will only grant new solid waste authority if the existing certificated company is determined to be unfit, unwilling, or unable to provide the service.

As we have discussed by phone on Friday, May 23, and Monday, June 3, 2019, you may not continue to transport solid waste to any facility without a certificate from the commission. You have stated that you understand the parameters of solid waste transportation. I am including an attachment of Collection and Transporting Garbage and Recycling in Washington. If you have any question, please contact me.

Any further transportation of solid waste verified by commission staff would constitute a violation. This investigation is closed at this time.

Thank you,

Kathryn McPherson

Subject: RE: Roofing material

The company is Westside Waste. Owner is Gary Van Laar.

Would a UBI number help?

It depends...

If the company has an account with us, then yes, we can pull all the transaction data for any time period.
If the company does not have an account with us, then we could possibly pull transaction data by license plate for that time frame.

That would be great Jon. I have a meeting 11-12, so no rush. Let me give you a heads up. I am working on a case where the company keeps dumping at either ShelCo, or Snohomish Transfer stations in Arlington and Marysville. The company is transporting solid waste in the form of roofing material from re-roof jobs. They are almost exclusively working for one roofing company. My question is can you pull all the tickets from a specific company for a specific time period?

Subject: Roofing material

Good day, Jon.

It has been very busy, and I do apologize for not having touched base with you recently. In our last discussion as a group, we questioned the current "status" of roofing materials transported by container companies. Was it ever determined the Snohomish county position on roofing materials, re-roof debris, and other such material? I ask because currently I have a second complaint regarding the same drop box company. They are transporting roofing materials occasionally to DTG as recyclable, but often taking the roofing to North County transfer station Arlington. They are also utilizing the Shelco.

I appreciate your information.

SECTION 4 - RATES AND TARIFFS

Is this application to operate under a contract? No Yes If yes, submit a copy of each contact under which service will be performed. The contract must contain all the elements states in [WAC 480-70-146](#).

If this application is for temporary authority, a new certificate, or extension of existing certificated authority, you must attach a copy of your proposed tariff using either the standard tariff format included in this package, or an approved alternate format. All tariffs must comply with the provisions of WAC [480-70-226](#) through WAC 480-70-351.

July 18, 2019

I Gary Van Laar am the sole owner and operator of Westside Waste Container Services LLC. With the encouragement of a local business in my hometown of Arlington WA S & S Roofing I started this business because he was dissatisfied with the quality and ability with the current company, he was using to supply him with containers to remove his construction debris from jobsites. I found a local company interested in selling me its hook truck and containers that had been in business for quite some time called CCS (Construction Container Services). After communication with Katie Hancock and Mike Dodson with the UTC office, I acquired the USDOT and Common Carrier Number which they both said is what I needed to provide the service I would be providing hauling construction debris from construction jobsites. Once I was up and running my business, I kept servicing roughly four of the five customers that had previously been serviced thru CCS. Construction companies BDZ, Gaffney and a couple other smaller construction companies to name a few. S & S roofing and these companies are extremely grateful to have my company and the services I provide to them offering container pick-ups evening's, weekends and the flexibility to pick up and drop off on short notice within less than 24 hours, a service they were not able to be provided from companies they had dealt with in my area prior to using Westside Waste Construction Containers LLC. Shane the owner of S & S Roofing of Arlington Washington was the most excited and has been my best and happiest customer to date. He no longer has issues of numerous accidents causing damage to his customers homes and driveways resulting in angry and dissatisfied customers and the constant battle to find a container service on weekends and short notice. I am now being told that my company is no longer in compliance with the changes made and I need to apply for this Solid Waste Certificate. I look forward to getting this certificate and continue with my business and servicing my many satisfied customers.

Thanks,

Gary Van Laar Owner/Operator of Westside Waste Container Services LLC

westsidewastellc@gmail.com

(425)508-3323

If this application is for a transfer or lease of authority from an existing certificate, you must either file a new tariff at the same rate levels as on file, or you must adopt the current certificate holder's tariff. To file a new tariff, use the standard tariff format (www.utc.wa.gov) or you must seek approval to use an alternate format.

Indicate which option you will use: Check one - Adopt File New Tariff

SECTION 5 - EQUIPMENT LIST

Describe the equipment that will be used (attach additional sheets if necessary)

Ownership: Lease, own, or plan to purchase?	Year	Make	License Number	Vehicle ID number	Gross Vehicle Weight	Type of Vehicle
OWN	2013	CAT	C85802J	1HTJ6TKT80J162 2034	50,000	Hook Truck

SECTION 6 - SAFETY AND OPERATIONS

In each of the categories show below, list the person and position responsible for understanding and complying with the Federal Motor Carrier Safety Regulations (FMCSR) and Washington State laws and rules. Please refer to the WAC rules, Fact Sheets, and publication "Your Guide to Achieving a Satisfactory Safety Rating" for assistance with requirements that may apply to your specific operations.

SAFETY RESPONSIBILITIES	
COMMERCIAL DRIVERS LICENSE (CDL) REQUIREMENTS (Title 49, Code of Federal Regulations Part 383) Any driver who operates a vehicle that meets the definition of a commercial motor vehicle must have a valid CDL.	
Name: Gary Van Laar	Position: OWNER
DRIVER QUALIFICATION REQUIREMENTS (Title 49, Code of Federal Regulations Part 391) Driver's must meet minimum qualification requirements and each company must maintain driver qualification files for each driver.	
Name: N/A	Position:
DRIVERS HOURS OF SERVICE (Title 49, Code of Federal Regulations Part 395) Drivers must maintain logs and each company must maintain true and accurate hours of service records for each driver.	
Name: N/A	Position:
CONTROLLED SUBSTANCES AND ALCOHOL TESTING (Part 382) All persons who drive commercial vehicles requiring a CDL must be in a Controlled Substance and Alcohol Testing program that complies with the FMCSR in 49 CFR Part 382 and 49 CFR Part 40.	
Each company will have in place a system for complying with FMCSR governing alcohol and controlled substances testing requirements (49 CFR Part 382 and 49 CFR Part 40).	
Name: Gary Van Laar	Position: Owner / Skagit Reg. Health
INSPECTION, REPAIR AND MAINTENANCE (Title 49, Code of Federal Regulations Part 396) Every motor carrier shall systematically inspect, repair, and maintain all motor vehicles subject to its control.	
Name: Gary Van Laar	Position: Owner

OPERATIONAL RESPONSIBILITIES

Desc Notes provided by Mathew Perkinson, Assistant Director, Transportation Safety.
Mr. Van Laar called Mr. Perkinson to state that he was frustrated regarding the purchase of a business that was legal two years ago and no longer legal. He said he was concerned the Tulalip Indian Tribe will sue Kathryn for discrimination and he spoke with a tribal elder for Tulalip. He said he didn't share her information specifically. The call duration was approximetly 21 minutes. He was concerned about interrupting his company while they were actively dumping. He said he didn't like that you essentially shedding bad light on his company or telling other companies not to use west side waste. He asked for clarification on whether he could haul a container loaded and owned by another company (Axis Roofing). I told him I would ask you to follow-up and clarify what is legal and what is not legal for his company to do. I told him your job is to ask difficult questions and sometimes companies do not like to hear what you have to say. I told him we would talk about how the message is delivered and safety when conducting investigations.

Subject: Solid waste questions

Mr. Van Laar,

I understand you still have questions regarding what you are or are not allowed to transport in regards to roofing materials, and the mode to which you transport. As a common carrier, you may not transport solid waste. It is not only that you may not use your box, but you may not use the roofing company's box and your vehicle to transport to any solid waste facility within or outside the state of Washington.

To help determine if a solid waste certificate of convenience is required, please review WAC 480-70-016(4):

(4) In determining whether operations require a solid waste certificate or a motor carrier permit, the commission will consider factors including, but not limited to:

- (a) The intent of the shipper;
- (b) The intended destination of the shipment;
- (c) The actual destination of the shipment;
- (d) Special handling or conditions placed on the shipment by the shipper and/or receiver;
- (e) The value of the commodity being transported;
- (f) Whether the carrier is primarily engaged in the business of providing solid waste collection or is primarily engaged in the business of providing a service other than the collection of solid waste; and
- (g) Whether the carrier holds itself out to the public as a transporter of solid waste.

You have admitted that at this time, you are not transporting to recycle centers. By definitions found in WAC 480-70-041, your transports are solid waste as defined below:

"Solid waste" or "solid wastes" means all putrescible and nonputrescible solid and semisolid wastes including, but not limited to:

- Garbage;
- Rubbish;
- Refuse;
- Swill;
- Ashes;
- Industrial wastes;
- Sewage sludge;
- Demolition and construction wastes;
- Abandoned vehicles or parts of abandoned vehicles; and
- Source-separated recyclable materials collected from single and multifamily residences.

"Demolition waste" or "demolition debris" means solid waste resulting from the demolition or razing of buildings, roads and other man-made structures. Demolition waste includes, but is not limited to, concrete, brick, bituminous concrete, wood and masonry, composition roofing and roofing paper, steel, and minor amounts of other metals like copper.

"Vehicle" means every device capable of **transporting solid waste on a public highway**. The term "vehicle" does not include devices moved by human or animal power or used exclusively on stationary rails or tracks.

In the investigated transportation of roofing materials, and in your self-reported information, Westside Waste transports to solid waste facilities. You have admitted that you transport to Snohomish County Public Works sites and ShelCo for the disposal of roofing solid waste. Until such time your application for a solid waste certificate has been approved, you must cease any and all transportation of solid waste, including construction and roofing debris.

Please contact me if you have any questions regarding this information.

Thank you,

Kathryn McPherson

Investigator, Solid Waste Enforcement

Transportation Safety Division
