RE: Commodity Price Adjustment for Tariff Number 13, Certificate Number G-98, Harbor Disposal and Eastern Grays Harbor Disposal

Dear Mr. Johnson:

Attached please find revised pages for Tariff Number 13, as well as supporting documentation for the commodity price adjustment. Tariff pages 1 and 20 are affected by this change.

The residential adjustment will decrease from a debit of \$2.21 to a debit of \$1.80, a decrease of \$.41, (19%) per customer, per month. There are approximately 6,500 customers affected by this change. Harbor Disposal and Eastern Grays Harbor Disposal do not currently participate in any county revenue share program.

Recycling commodity markets appear to have stabilized. We are no longer requesting a waiver from WAC 480-70-351(2). The calculation uses the most recent six-month historical period to estimate the recycling commodity expense/commodity adjustment. The true-up is also based on the most recent six months data. The true up is then divided by a 12-month customer count because the commodity price adjustment will be adjusted again effective January 1, 2021.

If approved by the Washington Utilities and Transportation Commission, the revised commodity credit will go into effect on January 1, 2020. Pursuant to WAC 480-70-271(2)(a)(vi), affected customers will receive notification of the change on the first billing reflecting the revised rates.

If you have any questions regarding these revisions, please contact me at (360) 695-4923 or via email at heatherg@wcnx.org.

Sincerely,

Heather Garland
Pricing Manager
