**STATE OF WASH.  
UTIL. & TRANSP. COMMISSION**

The Washington Utilities and Transportation Commission (Commission) believes that Caseco Associates, Inc., (Caseco Associates or Company) has violated Revised Code of Washington (RCW) 19.122.055 by failing to provide the required notice to facility operators through a one-number locator service before excavating and subsequently causing damage to an underground natural gas facility. RCW 19.122.055 states, in part, that any excavator who fails to notify a one-number locator service and causes damage to an underground hazardous liquid or gas facility is subject to a civil penalty of not more than \$10,000 for each violation.

Commission staff (Staff) conducted an investigation that included reviewing damage reports submitted by facility operators that identified natural gas damage events involving Caseco Associates. Accordingly, the Commission hereby notifies you that it is assessing a \$1,000 penalty against the Company on the following grounds:

On September 21, 2018, the Commission mailed an Alleged Violation of Washington Dig Law letter to Caseco Associates. The letter included detailed information about the requirements of Washington state's underground utility damage prevention act and the possibility of penalties for each violation. The Commission mailed the letter after it received a report of damage caused by Caseco Associates on June 21, 2018, that occurred because Caseco Associates failed to submit a request to locate underground utilities before excavating.

On December 14, 2019, Caseco Associates struck and damaged an underground gas line operated by Puget Sound Energy (PSE) while excavating at 2607 64<sup>th</sup> St. NW, Gig Harbor, Washington. The Damage Information Reporting Tool report submitted by Puget Sound Energy on January 19, 2020, indicated that Caseco Associates was excavating without a valid request to locate underground utilities.

Staff recommends the Commission assess a \$1,000 penalty against Caseco Associates for one violation of RCW 19.122.055 for failing to provide the required notice to a one-number locator service before excavating and causing damage to an underground natural gas facility for the violation that occurred on December 14, 2019.

Staff's research indicates that Caseco Associates has submitted 53 requests to locate underground utilities in Washington during 2018 and 2019. Caseco submitted utility locate requests on September 3, 2019, and September 11, 2019, for 2607 64<sup>th</sup> St. NW, Gig Harbor, but these locate requests expired 49 and 59 days, respectively, before the damage incident occurred. After considering all of the circumstances, Staff recommends that the Commission offer to suspend \$800 of the \$1,000 penalty amount for a period of one year, subject to the conditions that: (1) the Company incurs no further violations of RCW 19.122 within 12 months of the date of this Notice; and (2) Company management complete Dig Safe Training provided through the National Utility Contractors Association (NUCA) within 12 months of the date of this Notice.

The Commission agrees with Staff's recommendation and assesses a penalty of \$1,000, with an offer to suspend, and ultimately waive, \$800 of the \$1,000 penalty amount subject to the conditions listed above. If the Company fails to comply with the conditions, the \$800 suspended penalty will become immediately due and payable, in addition to any new penalties that the Commission may assess for additional violations.

These facts, if not contested or if proved at a hearing and not rebutted or explained, are sufficient to support the penalty assessment.

Your penalty is due and payable now. If you believe the violation did not occur, you may deny committing the violation and contest the penalty through evidence presented at a hearing or in writing. Or, if there is a reason for the violation that you believe should excuse you from the penalty, you may ask for mitigation (reduction) of the penalty through evidence presented at a hearing or in writing. The Commission will grant a request for hearing only if material issues of law or fact require consideration of evidence and resolution in a hearing. Any request to contest the violations or for mitigation of the penalty must include a written statement of the reasons supporting that request. Failure to provide such a statement will result in denial of the request. *See* RCW 81.04.405.

If you properly present your request for a hearing and the Commission grants that request, the Commission will review the evidence supporting your dispute of the violations or application for mitigation in a Brief Adjudicative Proceeding before an administrative law judge. The administrative law judge will consider the evidence and will notify you of their decision.

**You must act within 15 days after receiving this notice** to do one of the following:

- Pay the \$1,000 penalty amount due; or
- Pay \$200 of the penalty amount and notify the Commission that you accept the offer to suspend, and ultimately waive, the remaining \$800 of the penalty amount subject to the following conditions:
  - Company management must attend Dig Safe training provided through NUCA within twelve (12) months of the date of this Notice; and
  - **The Company must submit documentation of attendance to the Commission within five (5) days of attending the training;** and
  - The Company must not commit any further violations of RCW 19.122 within 12 months of the date of this Notice; or
