

Computer 5, Inc. d/b/a/ LocalTel Communications (“hereinafter referred to as LocalTel Communications”) (SAC 529026) Annual Eligible Telecommunications Carrier Report for 2022 Annual Plan

LocalTel Communications, study area code (“SAC”) 529026,¹ submits its Annual Eligible Telecommunications Carrier Report for 2022 (“2022 Report”) and Annual Plan for 2022 in accordance with WAC 480-123-060 to WAC 480-123-080.

I. LOCALTEL COMMUNICATIONS ETC REPORT FOR 2022

A. Annual Certification of Eligible Telecommunications Carriers

With this filing LocalTel Communications requests continued certification as an eligible telecommunications carrier (“ETC”) in Washington. In accordance with WAC 480-123-060, LocalTel Communications **Exhibit A** contains the certification that all federal high-cost universal service support was used in the preceding calendar year (2021) and will be used in the coming calendar year’s (2022-2027) for the “provision, maintenance, and upgrading of facilities and services for which the support is intended.”

B. Report as Required by WAC 480-123-070 for Calendar Year 2021

Computer 5 Inc. d/b/a LocalTel Communications, used federal high-cost CAF II support funds to purchase equipment, build towers, install antenna’s, and backhauled predominately in Lincoln, Adams, Douglas, Chelan and Grant Counties in Washington State. These towers allowed Computer 5 to bring its wireless “SkyFi” network closer to our CAF II targeted locations in the five counties mentioned herein. Computer 5 will continue to upgrade its backhauled and older tower sites, and at the same time targeting new potential tower sites to bring our network services even closer to CAF II target areas.

1. Report on use of federal universal service funds and benefits to consumers (WAC 480-123-160 (1), WAC 480-123- 070(1)(a) and (b))

Field service work was completed to identify CAF II census tracts and potential locations within each tract. Data management resulted in the input and labeling of 1800 CAF II locations into our database and mapping systems. Targeted CAF II locations will be analyzed in conjunction with existing and proposed tower sites using path analysis and strength of signal indicators to place tower locations to be developed. Upgrades and expansion of the LocalTel wireless network, known as “SkyFi” is bringing fixed wireless internet service, voice service and limited streaming video services to rural area consumers in Washington State, including CAF II locations and adjacent properties, at speeds and service levels these areas have not been able to experience previously. LocalTel has made considerable investments into CBRS licenses and equipment and continues to deploy and test different CBRS equipment in an attempt to cover and provide service to CAF II areas and previously unreachable areas. For details on how CAF II funds were used in 2021 see attached **Confidential Exhibit B**. LocalTel continues to offer voice and broadband services in urban areas at rates that are less than benchmarked rates for such services as certified in company filings of Form 481 with Universal Service Administration Company, which thereby benefits Washington State consumers. In 2021, LocalTel commenced its reporting with USAC to complete the verification process of the first 400 CAF II location pass-bys. This verification process with USAC was just recently completed and approved, thereby putting LocalTel on track to continue to meet its CAF II milestones.

2. Local Service Outage Reports (WAC 480-123-070(2))

NONE. LocalTel had no service outages of at least 30 minutes in duration which may have affected:

- (i) Ten percent of the LocalTel end users
- (ii) A 911 special Facility

3. Report on failure to provide service (WAC 480-123-070(3))

LocalTel Communications had no (0) unfulfilled requests for service in calendar year 2021.

4. Report on complaints per one thousand connections (WAC 480-123-070(4))

LocalTel Communications reports that during calendar year 2021, the Company did not receive from the Federal Communications Commission or the Consumer Protection Division of the Office of Attorney General of the State of Washington any Complaints against the Company concerning the services provided to customers that are either subject to the regulatory jurisdiction of the Washington Utilities and Transportation Commission or among the services supported by the federal high-cost fund.

5. Compliance with applicable service quality standards (WAC 480-123-070(5))

For wireline carriers the rule requires a commitment to comply with applicable consumer protection and service standards of chapter 480-120 WAC. Included in **Exhibit A** is LocalTel Communications certification of substantial compliance with this requirement.

6. Certification of the ability to function in emergency situations (WAC 480-123-070(6))

To comply with this requirement an ETC must certify that it has adhered to the requirements in WAC 480-123-030(1)(g) and outlined in WAC 480-120-411. Per WAC 480-123-030(1)(g) LocalTel Communications central office has permanently installed emergency power facilities. LocalTel Communications central office is equipped with an automatic start generator with an automatic transfer switch. In addition, LocalTel Communications has six hours of reserve battery capacity. The required minimum for central offices equipped with automatic start generators is three hours of reserve battery. LocalTel has redundant Network Equipment in key locations, with redundant routing in place, redundant backhauls to most tower sites and battery backup at key tower sites and at network edge locations.

7. Advertising certification, including advertisements on Indian reservations (WAC 480-123- 070(7)).

The certification for this section is included in **Exhibit A**.

LocalTel Communications is committed to publicizing the availability of its Lifeline Service in a manner that is reasonably designed to reach those likely to qualify for the service. In that regard, during 2021 LocalTel Communications engaged in the activities listed below to support its Lifeline Service program.

- LocalTel Customer Service and Billing Representatives are trained to assist customers who inquire about the Lifeline Program or indicate the need for financial assistance.
- Links to information about the Lifeline Program and National Verifier are on the LocalTel.com website. Exhibit #3
- Notice of Lifeline Benefit availability included on both English and Spanish flyers mailed to residences in the LocalTel Communications service area. Exhibit #4
- Notice of Lifeline Availability is included in revolving LocalTel reader board messages in two counties.

LocalTel Communications service area does not include Indian Reservations/Tribal Lands.

II. Annual Plan for Universal Service Support Expenditures as Required by WAC 480-123-080

Confidential Exhibit C contains LocalTel Communications projected receipt of federal high-cost support in 2023 and its plans to utilize such support.

Exhibit A

**Computer 5 Inc. A Washington Corporation
d/b/a LocalTel Communications
2022 ANNUAL ETC AFFIDAVIT AND CERTIFICATION**

I, John J Seabeck, being of lawful age and duly sworn, state that I serve as Vice President and General Manager for Computer 5 Inc. d/b/a/ LocalTel Communications.

I certify to the Washington Utilities and Transportation Commission ("Commission") under penalty of perjury under the laws of the State of Washington that the following is true and correct to the best of my knowledge:

1. The Commission designated LocalTel Communications as an eligible telecommunications carrier ("ETC") in certain areas in Washington by Order dated January 31, 2019 in Docket UT-180763.
2. Federal high-cost CAF II support received by LocalTel Communications was used in 2021 and will also be used in 2022 & 2023 only for the provision, maintenance, and upgrading of the facilities and services to deliver high speed broadband internet access for which the support is intended in accordance with WAC 480-123-060.
3. During calendar year 2021, LocalTel Communications provided the supported high-cost services to areas identified in its Connect America Fund Phase II Authorized Support Winning Bid as awarded in FCC Docket DA 19-1030 and has provided detailed information on the use of funds in accordance with WAC 480-123-070.
4. During calendar year 2021, LocalTel Communications met the applicable service quality standards and consumer protection rules by complying substantially with the consumer protection and service standards of chapter 480-120 WAC as required by WAC 480-123-070(5).
5. During calendar year 2021, LocalTel Communications had the ability to function in an emergency situation and meet the applicable requirements as required by WAC 480-123-070(6) as described in the **LocalTel Communications Annual ETC Report for 2022 Annual Plan.**

6. During calendar year 2021, LocalTel Communications **did** publicize the availability of its Lifeline Service in a manner reasonably designed to reach those likely to qualify for service in accordance with WAC 480-123-070(7). Therefore, LocalTel Communications did service Lifeline Program subscribers during 2021.

Vice President/General Manager
Computer 5 Inc. d/b/a
LocalTel Communications
June 16th, 2022
