This message came from outside your organization.

Hi Adam,

Thanks for looping back. For 2024, we instituted a new rate structure that charges commercial haulers a fixed annual charge along with a tipping fee. The intention is that the change is rate neutral, meaning that the tipping fee + fixed annual charge (FAC) will collect the same amount of revenue that the structure with the tipping fee alone would have collected. Thus, the tipping fee for 2024 is actually reduced to account for the introduction of the FAC. More information on this change is available [here](#).

For Waste Connections, the FAC for 2024 is \$93,846 or \$7,821 per month. Most haulers have indicated they prefer monthly billing, but we can do quarterly as well.

The tipping fee will be \$150.83.

Happy to jump on a call if you have any questions.

Thanks,

Lindy

Hello Lindy,

I am following up on the below email. Do you have some additional information for us? Thanks!

We need to file paperwork with the UTC to implement rate increases. I know King County is moving to a fixed fee component but we were unable to get an answer on how that would impact UTC customers.
