Re: The Energy Project's Comments on NW Natural's Revisions to
Schedule I, Docket UG-240074

Dear Jeff Killip:

The Energy Project supports NW Natural's proposal to modify its low-income energy efficiency program by increasing the benefit amount for energy efficiency measures, as well as the benefit amount for health, safety, and repairs. TEP believes that these changes will enable the low-income energy efficiency program to serve more customers and provide more savings.

The Energy Project thanks NW Natural for working collaboratively with its Community Action Agency to propose this change, which will overcome barriers to serve this hard-to-reach population.

Very truly yours,
/s/Yochanan Zakai
